GKBook

# Colors That Start With P

Names, source-specific digital values, historical meanings, and independently reviewed shade families

| 2,982 digital records | 448 historical entries | 12 shade families |
|---|---|---|
| Exact source previews | Documented category meanings | Independent visual review |

An illustrated reference for high school and college readers, with a source-linked alphabetical directory, historical naming evidence, worked examples, and a complete companion atlas.

**Research checked:** October 15, 2026
**Language:** US English
**Scope:** International, source-bounded coverage.

# Overview

## What belongs on a P-colors page?

Pink, purple, peach, plum, periwinkle, Prussian blue, and pearl show the range of color vocabulary beginning with P. A name may denote an exact software color, a product preview, a pigment, a gem appearance, or an older descriptive category. This edition brings together 2,982 source-specific digital records and 448 historical lexical entries while keeping those meanings distinct.

## How to use this reference

Start with the comparisons and worked examples, then search the offline page by name, source, product code, or hex value. The alphabetical directory gives numerical evidence and limitations. The companion atlas organizes every admitted digital record into one of twelve reviewed families. CSV and JSON preserve the values and their provenance.

## What the count means

Coverage is bounded by the named inventories, regional catalogs, linked product pages, and historical block described in the source register. It is not a worldwide census. A shared name can describe several different previews, and several source identities can share one triplet. Historical entries and name-only evidence are not additional verified RGB colors.

## At a glance

| Measure | This edition |
| --- | --- |
| Digital records | 2,982; each source context counted once |
| Distinct displayed names / RGB triplets | 2424 names / 2961 triplets |
| Evidence groups | 26 source/system/version groups |
| Historical naming entries | 448; no digital values invented |
| Held numerical records | 202; excluded from the verified atlas |
| Alias rows combined | 7; alternative names remain searchable in the data |

# Purple demonstrates why a source matters

## One word, several numerical conventions

CSS purple is #800080. The X.Org X11 rgb 1.1.1 file defines purple as #A020F0, while the xkcd survey assigns purple #7E1E9C. Those are three documented conventions, not three competing measurements of one material. Specify the system before choosing a number. The unqualified Purple variants in an older list cannot all be labeled CSS. [13, 17, 18]

## A name is only part of an identity

For commercial color, retain the issuer, product code, collection, market, and evidence version. Peach Fuzz illustrates this well: the dealer’s Pantone 13-1023 TCX preview is #FFBE98, Dunn-Edwards DE5142 is #FFC7B9, and Sherwin-Williams SW 6344 is #ECCFBB. The name alone does not make those products equivalent. [3, 4, 12]

## Exact transcription has a limited meaning

An exact software definition, a maker’s digital product preview, and a third-party dealer approximation are different evidence types. Copying a number accurately does not turn a screen patch into a physical measurement. Source qualifiers remain visible in the directory, atlas, and data. [12, 14, 17, 30]

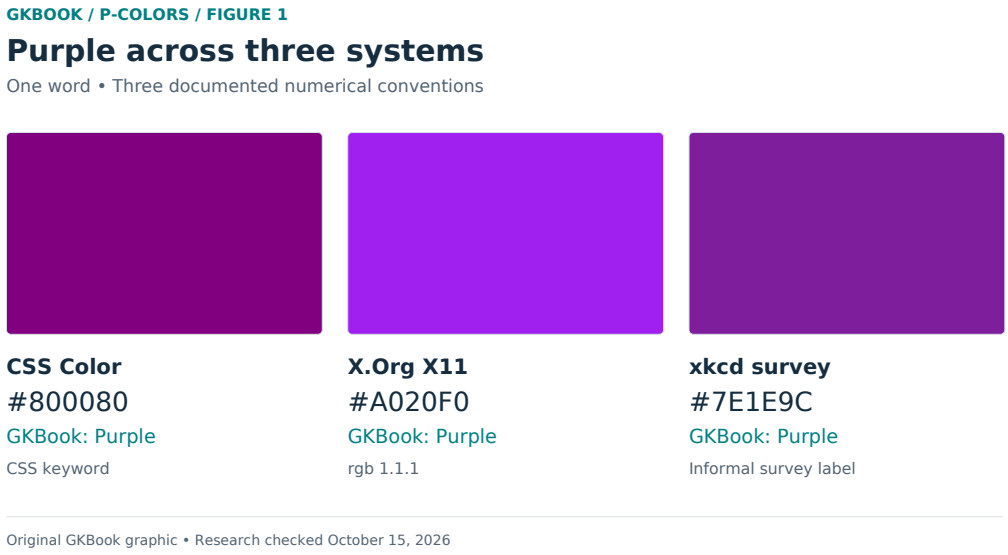

**Figure 1. Purple across three systems** CSS, X11, and the xkcd survey assign different values to purple. The system label belongs with the number.

| Record / name | Source | Hex | Family |
|---|---|---|---|
| P2773 / purple | CSS Color | #800080 | Purple |
| P2774 / purple | X.Org X11 | #A020F0 | Purple |
| P2775 / purple | xkcd survey | #7E1E9C | Purple |

# Reading RGB and hexadecimal values

## A worked example: CSS pink

The six digits in #RRGGBB encode three eight-bit channels. CSS pink is #FFC0CB: FF is 15 × 16 + 15 = 255, C0 is 12 × 16 + 0 = 192, and CB is 12 × 16 + 11 = 203. Its RGB notation is therefore (255, 192, 203). This is an exact arithmetic conversion, not a visual estimate. [17]

## An encoding gives the channels meaning

Published previews are interpreted here as sRGB for illustration and contrast calculation. Channel values are not paint-mixing proportions or linear light intensities. A display, viewing environment, surface finish, and illumination can affect appearance; a flat preview cannot reproduce all of a physical sample’s behavior. [19, 30]

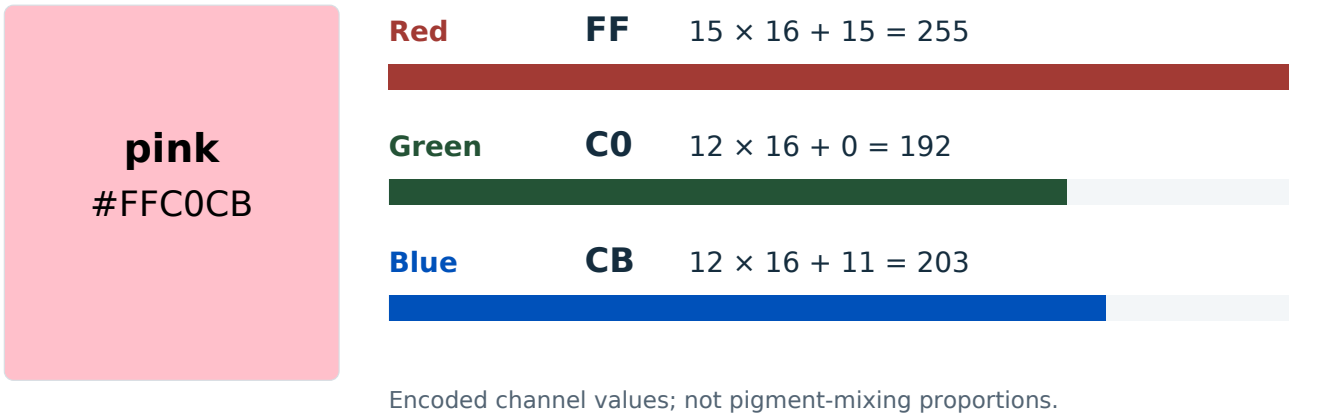

## Reported LRV is separate metadata

Where a manufacturer supplies a light reflectance value, the directory preserves it as source-reported LRV. Calculated relative luminance comes from the sRGB preview and serves the text-contrast calculation. Those quantities are not substituted for one another. [19, 20]

GKBOOK / P-COLORS / FIGURE 2

### Reading #FFC0CB

CSS pink • RGB (255, 192, 203)

Original GKBook graphic • Research checked October 15, 2026

**Figure 2. Reading #FFC0CB** Hexadecimal and decimal RGB are exact alternative notations. The illustrations interpret previews as sRGB.

# Eleven CSS keywords and the X11 distinction

## The exact CSS spellings

The consulted CSS Color 4 table includes palegoldenrod, palegreen, paleturquoise, palevioletred, papayawhip, peachpuff, peru, pink, plum, powderblue, and purple. The comparison table gives their exact values. The source is identified as the October 9, 2026 Candidate Recommendation Draft; this edition does not silently relabel it a final Recommendation. [17]

## Case and spacing aliases have a narrower role

The fixed X.Org release contains 46 P rows. Combining seven explicit case/spacing alternatives leaves 39 identities. Its numbered labels, such as pink1 and plum4, remain distinct; they do not become CSS keywords. The source archive was retrieved for the previous edition and reused after fresh requests failed, with its version and original checksum retained. [18]

## Informal spelling is part of the evidence

The xkcd dataset preserves periwinkle and perrywinkle as separate labels. Its poo, poop, puke, and related names are informal survey vocabulary; they are neither editorial recommendations nor standardized pigment names. Search can normalize accents and case without altering the underlying names or values. [13, 29]

| Record / name | Source | Hex | Family |
|---|---|---|---|
| P0154 / palegoldenrod | CSS Color | #EEE8AA | Yellow |
| P0156 / palegreen | CSS Color | #98FB98 | Green |
| P0294 / paleturquoise | CSS Color | #AFEEEE | Blue |
| P0307 / palevioletred | CSS Color | #DB7093 | Pink |
| P0408 / papayawhip | CSS Color | #FFEFD5 | White |
| P0813 / peachpuff | CSS Color | #FFDAB9 | Orange |
| P1215 / peru | CSS Color | #CD853F | Brown |
| P1473 / pink | CSS Color | #FFC0CB | Pink |
| P1941 / plum | CSS Color | #DDA0DD | Purple |
| P2348 / powderblue | CSS Color | #B0E0E6 | Blue |
| P2773 / purple | CSS Color | #800080 | Purple |

# How GKBook assigns shade families

## Judge the actual patch

All 2,982 admitted records, representing 2,961 distinct RGB patches, received visual review on neutral surrounds. Hue, lightness, chroma, and neighboring appearances informed each decision. Numerical bins organized the initial inspection; 1,166 record assignments changed during review. Identical triplets share one final family.

## Names and categories remain separate

A name can suggest a hue without determining the browsing category. Very pale papayawhip belongs here in White. The xkcd pale teal is judged from its actual preview, independently of the word teal. Crayola’s Pink Flamingo requires special caution because its currently published field is anomalous. The graphic shows specific examples, with the source numbers unchanged. [13, 16, 17]

## The twelve families are editorial navigation

Black and White include selected tinted near-neutrals. Gray includes subdued warm and cool neutrals. Brown includes earthy colors, tans, and selected beiges and taupes. Green includes olives, mints, and selected green teals; Blue includes cyan blues and blue-grays. Purple is comparatively balanced or red-leaning; Violet is comparatively blue-leaning. Pink includes blushes and rose colors. Orange, Red, and Yellow complete the twelve-family scheme. These are useful editorial boundaries, not a new physical color standard.

## A family change is not a numerical correction

Changing an earlier list’s family label does not alter the source hex or RGB. Source categories are retained separately when available. A shared triplet cannot be Green in one record and Blue in another merely because its product names differ.

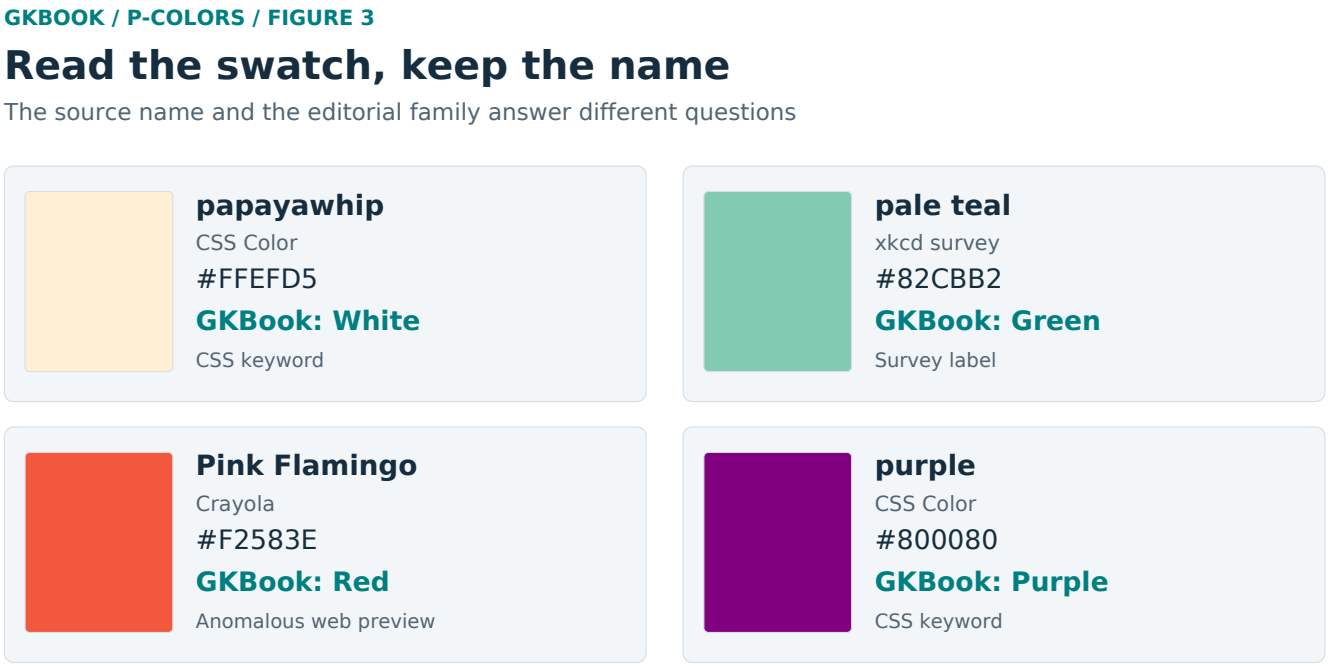

**Figure 3. Read the swatch, keep the name** The family is a reviewed navigation judgment. Pink Flamingo’s anomalous published field is explicitly qualified; no physical reformulation is inferred.

# Crayola names and an anomalous preview

## Use the source’s displayed names

The consulted Crayola page spells the name Pink Sherbert and publishes #F7A38E. It spells Purple Mountains’ Majesty with a plural Mountains and publishes #D6AEDD. Piggy Pink is #FDD7E4, Pacific Blue is #009DC4, and Periwinkle is #C3CDE6. These are named web-preview fields checked for this edition. They are not claims about the composition of every crayon sold under those names. [16]

## Pink Flamingo needs an explicit qualification

The current named Pink Flamingo element contains RGB (242, 88, 62), equivalent to #F2583E, within the page’s Red source category. That is visibly different from the supplied #FC74FD. The directory preserves the published numerical field and flags the anomaly. It does not silently substitute a familiar legacy magenta or infer that the physical crayon was reformulated. For physical matching, request clarification or use a current product sample. [16, 33]

## Older values are still accounted for

The reconciliation retains each supplied spelling and hex. An exact match can be tied to a documented source; a different current preview does not, by itself, establish whether the older number was a past convention, an alternate source, or an error. The audit distinguishes these possibilities instead of treating every mismatch as a replacement instruction. [16, 33]

# Pigments are materials, not universal hex codes

## Prussian blue

CAMEO identifies Prussian blue with ferric ferrocyanide and Pigment Blue 27. Its deep blue pigment has been used in paint and printing contexts. The xkcd prussian blue #004577 and Benjamin Moore Prussian Blue CW-625 #325A7D are separate digital conventions. Neither is the universal numerical definition of the pigment. [2, 13, 23]

## Phthalocyanine blue and green

Phthalocyanine blue is based on copper phthalocyanine, identified as Pigment Blue 15; CAMEO records commercial Monastral blue in 1935. The green family includes chlorinated PG7 and a brominated/chlorinated yellow-shade PG36. A pigment designation describes a material context, while formulation, concentration, binder, and viewing conditions affect its appearance. No unique triplet is invented for these material entries. [24, 25]

## Payne’s gray is a mixture

CAMEO describes Payne’s gray as a dark gray mixture whose blue component can vary among ultramarine, Prussian blue, and phthalocyanine blue. The name therefore does not identify one pure chemical or one mandatory digital value. Named paint previews and historical dictionary assignments remain separate evidence. [22, 26]

## Historical usage can surprise a modern reader

NBS records Puke as a dark-red category under Maerz and Paul. A modern informal survey uses that word in a different color context. The evidence documents different naming communities and periods, rather than a reason to overwrite one with the other. [13, 22]

# Pearl, peridot, and descriptive names

## Pearl includes both color and appearance

GIA describes natural and cultured pearls in many body colors, with luster arising from reflected light. A single patch labeled Pearl cannot represent that range or the surface effect. Commercial Pearl colors are issuer-specific choices; the material entry carries no invented RGB value. [27]

## Peridot spans a range

GIA describes peridot from green through yellowish green to greenish yellow. That supports a family of observed appearances, not one universal numerical triplet. The historical dictionary also gives several descriptive regions for Peridot. These sources answer different questions from a manufacturer’s named preview. [22, 28]

## Pale and pastel are modifiers

A prefix such as pale describes a relationship within a naming context; it does not define a fixed mathematical tint operation. CSS palegreen, survey pale green, and commercial Pale Green products must be read in their own systems. This page does not derive one by adding an arbitrary amount of white to another color. [13, 17]

## The historical directory has a clear boundary

The 448-entry appendix covers non-inverted P-initial lexical entries in the principal NBS block, printed pages 132–137. P-initial modifiers encountered there are included. Inverted index pointers and names beginning with another letter are excluded. Numbered senses, sample locators, brackets, and specification qualifiers remain visible. Earlier works are represented through NBS rather than independently reexamined. An obsolete offensive racial term is marked solely as historical documentation. [22]

# Brand and national color claims need context

## Penn and Panasonic have explicit numbers

Penn’s central logo page gives Penn Blue #011F5B and Penn Red #990000 with matching RGB fields. Panasonic’s January 2021 industrial guide gives Panasonic Blue #0041C0, RGB (0, 65, 192), on printed page 3. The supplied Panasonic #0040BE is not an exact match. The dated industrial guide is the admitted context; it is not presented as a universal current rule for every Panasonic operation. [31, 32, 33]

## Princeton Orange has documented variants

A December 14, 2023 alumni social-media handout specifies Princeton Orange #EE7F2D. Princeton Facilities’ June 5, 2025 presentation guide shows #F58024, while CITP publishes orange RGB (234, 113, 37), or #EA7125 by exact conversion. The public university accessibility page explicitly documents #F58025 for orange on black and #E77500 on white, resolving the supplied value in that context. These two examples and the dated alumni convention remain distinct directory entries. Current central identity materials require university access. [33, 36–39, 44]

## Palatinate requires the particular application

Durham’s academic-dress regulations establish the term palatinate silk. The 2019 identity PDF was not available to this research request, so no numerical brand specification is admitted from it. A ceremonial fabric term, an institutional palette, and a generic internet color name must not be merged without evidence. The supplied Palatinate values remain individually reconciled. [33, 41]

## Philippine names do not automatically imply national standards

Section 28 of Republic Act No.8491 identifies blue, white, red, and golden yellow with cable numbers 80173, 80001, 80108, and 80068 respectively. Those are physical reference identifiers, not the supplied list’s hex codes. The section does not authenticate a broad palette of Philippine-named web colors. No unverified cable-to-sRGB conversion is invented here. [33, 40]

# Readable color: a worked contrast example

## Start with linearized channels

Divide each eight-bit channel by 255. For a normalized channel c at or below 0.04045, use c/12.92; otherwise use ((c + 0.055)/1.055)^2.4. Relative luminance is 0.2126R + 0.7152G + 0.0722B using linearized components. Contrast is (lighter luminance + 0.05)/(darker luminance + 0.05). [20]

## CSS purple favors white text

For purple #800080, calculated relative luminance is approximately 0.061477. Opaque black text yields about 2.23:1 contrast; opaque white yields 9.42:1. White meets normal-text AA contrast, while black is below even the large-text threshold. The worked figure deliberately shows both to make the difference visible. [17, 20, 21]

## CSS pink favors black text

For pink #FFC0CB, relative luminance is approximately 0.632711; black yields 13.65:1 and white 1.54:1. Black meets normal-text AA contrast, while white is below the large-text threshold. A color name does not determine readability; the actual foreground and background values do. [17, 20, 21]

## Independently check an issuer’s contrast claim

Princeton’s accessibility page supplies useful orange values but groups both examples under one statement about small text. The numerical evidence and contrast conclusion are separate: #F58025 on opaque black exceeds the normal-text AA threshold, while #E77500 on opaque white does not. This edition recalculates every ratio from the actual channels. [20, 21, 44]

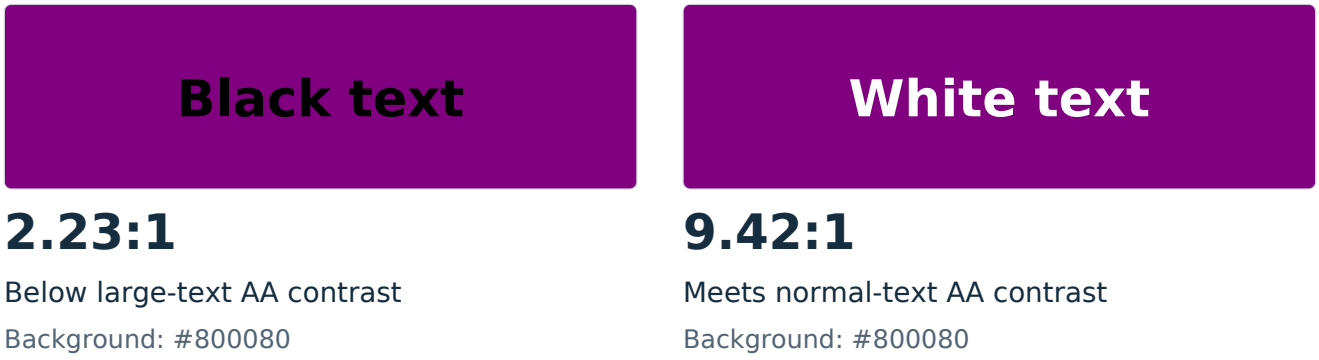

## Compare unrounded values

WCAG AA generally uses at least 4.5:1 for normal text and 3:1 for large text, subject to its stated exceptions. Large text means at least 18 points, or 14 points if bold. Threshold decisions use unrounded ratios. Transparency, images, interactive states, and other interface features need separate assessment; a two-color calculation is not a whole-site accessibility certification. [21]

GKBOOK / P-COLORS / FIGURE 4

## Text contrast on purple

Opaque sRGB colors • Relative luminance Y ≈ 0.061477

**2.23:1**

Below large-text AA contrast

Background: #800080

**9.42:1**

Meets normal-text AA contrast

Background: #800080

### AA: at least 4.5:1 for normal text; 3:1 for large text.

The low-contrast black text is intentional. Compare unrounded values at a threshold.

Original GKBook graphic • Research checked October 15, 2026

**Figure 4. Text contrast on purple** Contrast depends on both text and background. Ratios follow WCAG 2.2 and do not certify an entire interface.

# Evidence gaps and resolutions for the original list

## Pale Dogwood and Peach Fuzz

Pantone’s indexed official entry confirms the name Pale Dogwood and code 13-1404 TCX. The consulted dealer lists #EDCDC2 consistently, which does not verify the supplied #ED7A9B. The correction is source-qualified. Peach Fuzz #FFBE98 matches the dealer’s 13-1023 TCX entry; an indexed Pantone 2024 guide excerpt also states that number, although full PDF retrieval was unavailable. The dealer record retains its qualification. [12, 33, 42, 43]

## Contradictory fields are held

The dealer tables contain P rows whose printed hex and RGB disagree. Resene Palm Leaf also conflicts: RGB (85, 97, 80) implies #556150, while its page prints #556151. Those rows are excluded from the numerical atlas; the conflict table preserves both fields and the exact hex implied by the RGB. That arithmetic diagnostic is not a guess about which field the source intended. Even an internally consistent dealer row is not automatically a licensed physical standard. [5, 12]

## Every original row receives a resolution

All 256 supplied rows are retained in the reconciliation, including their original values and families. It records exact source-specific matches, same-name/different-value cases, historical-name evidence, and unverified numerical claims. An exact match identifies a documented context; it cannot reveal the original author’s unstated intent. Unverified does not mean proven false. [33]

## Spelling corrections preserve identity

The supplied Pink Sherbet and Purple Mountain(s) Majesty forms are cross-referenced to Crayola’s displayed names when appropriate, with their original spellings preserved in the reconciliation. The xkcd spelling perrywinkle remains intact because it is itself a source label. No generic spelling normalization is allowed to erase a distinct value. [13, 16, 33]

## Versions and gaps remain visible

The general Sherwin-Williams table calls SW 7520 Plantation Shutters, while the checked product page displays Dark Brown with the same #6A5143. The P entry retains its catalog-name context explicitly. Older-only Sherwin-Williams entries are explicitly historical. Code-matched older/current preview differences are logged without inferring physical reformulation. Failed or nonnumerical pages remain in the scope-gap records; unsupported numbers are not supplied by sampling screenshots or borrowing another manufacturer’s same-name preview. [3, 34, 35]

# Source coverage and family guide

Source groups identify distinct evidence contexts. They are not a count of unrelated manufacturers. TCX/TPG dealer previews, the two Sherwin-Williams table contexts, and the dated brand guides are deliberately distinguishable. Counts below are after documented alias consolidation.

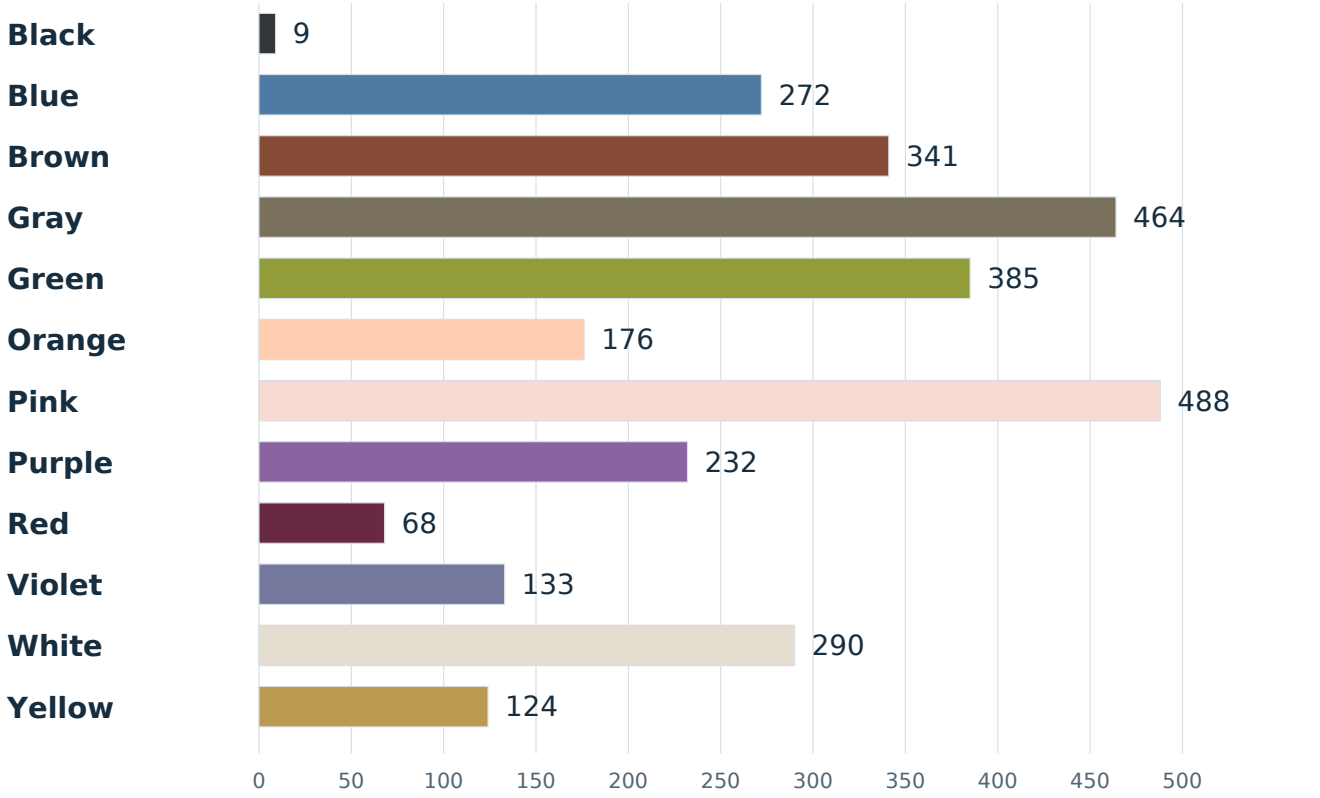

| Source group | n | Consulted evidence |
|---|---|---|
| Dulux Australia | 560 | Successfully checked sitemap-discovered P product identities; gaps and duplicate URLs separately logged. [9] |
| Behr | 414 | P subset of the stated consulted inventory; see source register. [1] |
| Benjamin Moore | 308 | P subset of the stated consulted inventory; see source register. [2] |
| Pantone TCX / dealer | 228 | Internally consistent dealer approximations; licensed current values unverified. [12] |
| Asian Paints | 209 | P subset of the stated consulted inventory; see source register. [8] |
| Nerolac | 194 | P subset of the stated consulted inventory; see source register. [11] |
| RAL | 191 | P subset of the stated consulted inventory; see source register. [14] |
| Dunn-Edwards | 180 | P subset of the stated consulted inventory; see source register. [4] |
| Resene | 170 | All five P index pages; chart/range retained for numerical product previews. [5] |
| xkcd survey | 113 | P subset of the stated consulted inventory; see source register. [13] |
| Sherwin-Williams | 92 | P subset of the stated consulted inventory; see source register. [3] |
| Jotun | 66 | P names from 989 regional interior identities across 110 API pages. [15] |
| PPG | 62 | Bounded selection discovered from consulted family indexes. [6] |
| Little Greene | 46 | P subset of the stated consulted inventory; see source register. [10] |
| X.Org X11 | 39 | 46 source rows represented by 39 identities, seven spelling alternatives. [18] |
| Farrow & Ball | 29 | P subset of the stated consulted inventory; see source register. [7] |
| Pantone TPG / dealer | 27 | Internally consistent dealer approximations; contradictory rows held. [12] |
| Sherwin-Williams historical table | 21 | Older-table numerical contexts; current values unverified. [34] |
| CSS Color | 11 | All eleven P keywords in the consulted draft. [17] |
| Crayola | 10 | Ten named Explore Colors CSS previews; Pink Flamingo anomaly explicitly flagged. [16] |
| COLORSTEEL® via Resene | 4 | Resene-hosted supplier preview; not independently checked against current maker specifications. [5] |
| COLORBOND® via Resene | 2 | Resene-hosted supplier preview; not independently checked against current maker specifications. [5] |
| Princeton accessibility guide | 2 | Two explicitly named background-specific orange examples; contrast independently recalculated. [44] |
| University of Pennsylvania | 2 | Two central logo-web specifications. [31] |
| Panasonic industrial guide | 1 | One January 2021 industrial-guide specification. [32] |
| Princeton alumni guide | 1 | One December 2023 public alumni-handout specification. [36] |

## Distribution in this edition

GKBOOK / P-COLORS / FIGURE 5

### The 12 editorial families

Records in this source-bounded edition • n = 2,982

Each admitted record is counted once. • Counts do not measure popularity or natural abundance.

**Figure 5. The 12 editorial families** The distribution reflects consulted catalogs, record boundaries, and GKBook's final visual judgments. It is not a survey of color popularity.

These counts describe the inventories and editorial boundaries used here. They do not measure worldwide frequency, popularity, natural abundance, or scientific importance.

## Family definitions

| Family | n | Interpretation / atlas figure |
|---|---|---|
| Black | 9 | Very dark near-neutrals and selected tinted blacks. Figure 6. |
| Blue | 272 | Blues, blue-grays, cyan blues, and selected blue teals. Figure 7. |
| Brown | 341 | Earthy warm colors, tans, beiges, ochres, and selected taupes. Figure 8. |
| Gray | 464 | Near-neutrals with subdued warm, cool, green, or violet undertones. Figure 9. |
| Green | 385 | Greens, mints, olives, yellow-greens, and selected green teals. Figure 10. |
| Orange | 176 | Oranges, peaches, salmon-oranges, and selected warm ambers. Figure 11. |
| Pink | 488 | Pinks, blushes, roses, and selected coral or deep rose colors. Figure 12. |
| Purple | 232 | Comparatively red-leaning or balanced purples, mauves, and plums. Figure 13. |
| Red | 68 | Reds, crimsons, burgundies, and selected brick colors. Figure 14. |
| Violet | 133 | Comparatively blue-leaning purples and selected lavenders. Figure 15. |
| White | 290 | Very pale near-neutrals and selected tinted whites. Figure 16. |
| Yellow | 124 | Yellows, creams, golden colors, and selected yellow chartreuses. Figure 17. |

Figures 6–17 span 106 labeled atlas sheets. Every one of the 2,982 digital records appears exactly once. Pale patches have borders; identifiers and numerical values accompany every patch.

# Alphabetical digital directory

Family is GKBook’s visual judgment. Each hex/RGB pair is exactly equivalent. The evidence note preserves source categories, archive flags, LRVs, aliases, and limitations. No product code is invented when the consulted page omits it. Proper source spellings and regional names remain intact; their initial letter is the selection rule.

| Evidence type | Records |
|---|---|
| primary issuer | 2584 |
| dealer approximation | 255 |
| supplier preview | 6 |
| survey label | 113 |
| historical issuer table | 21 |
| dated issuer guide | 2 |
| catalog name differs from current page | 1 |

# Aliases and source versions

7 X11 case/spacing alternatives are consolidated. Retained names and aliases remain searchable. Distinct numbered and lexical labels remain separate even when values coincide. Duplicate product URLs are logged without creating additional identities. [9, 18]

| Alternative name | Retained record | Source / identifier |
|---|---|---|
| PapayaWhip | papaya whip / P0410 | X.Org X11 / rgb 1.1.1 |
| PeachPuff | peach puff / P0814 | X.Org X11 / rgb 1.1.1 |
| PowderBlue | powder blue / P2355 | X.Org X11 / rgb 1.1.1 |
| PaleTurquoise | pale turquoise / P0295 | X.Org X11 / rgb 1.1.1 |
| PaleGreen | pale green / P0162 | X.Org X11 / rgb 1.1.1 |
| PaleGoldenrod | pale goldenrod / P0155 | X.Org X11 / rgb 1.1.1 |
| PaleVioletRed | pale violet red / P0308 | X.Org X11 / rgb 1.1.1 |

The source-version file preserves 70 code-matched differences between the older Sherwin-Williams table and retained previews. 21 older-only identities remain qualified as historical. Preview differences do not establish physical reformulation. [3, 34]

# Historical P-color names

The 448 entries below are transcribed from the principal P block on printed pages 132–137 (PDF pages 168–173) of NBS SP 440. P-initial modified forms encountered in that block are included; inverted index pointers and names beginning with another letter are excluded. This is a bounded transcription, not an exhaustive search of P words filed elsewhere. [22]

| Key | Earlier source interpreted by NBS |
|---|---|
| A | American Association of Textile Chemists and Colorists and Society of Dyers and Colourists. |
| B | H. A. Dade, Color Terminology in Biology. |
| F | Federal Specification TT-C-595, Colors; (for) Ready-Mixed Paints. |
| H | R. F. Wilson, Horticultural Colour Charts. |
| M | Maerz and Paul, A Dictionary of Color, first edition. |
| MUP | Commercial Standard CS147-47, Colors for Molded Urea Plastics. |
| P | Plochere Color System. |
| PSP | Commercial Standard CS156-49, Colors for Polystyrene Plastics. |
| R | Ridgway, Color Standards and Color Nomenclature. |
| RC | National Research Council, Rock-Color Chart. |
| S | William H. Beck, Postage-Stamp Color Names. |
| SC | U.S. Department of Agriculture Soil Color Charts. |
| T | Taylor, Knoche, and Granville, Descriptive Color Names Dictionary. |
| TC | Textile Color Card Association: Standard Color Card of America and U.S. Army Color Card. |

Each source assignment is expanded separately. Category regions are not unique RGB triplets. Numbered Pink senses, qualified Pullman Green entries, and sample locators remain distinct. Historical offensive language is explicitly marked and is not recommended for modern naming. Earlier works are represented through NBS.

The unresolved JSON includes each exact source URL and reason. Dealer qualifiers remain necessary even for admitted internally consistent rows. This register concerns contradictory published numerical fields, separate from missing-page or name-only evidence. [5, 12]

# Name-only evidence and scope gaps

| Name / source | Evidence boundary |
|---|---|
| Prussian blue (pigment) / MFA Boston / CAMEO | Ferric ferrocyanide pigment. A material identity does not establish one universal sRGB value. |
| Phthalocyanine blue (pigment) / MFA Boston / CAMEO | Copper phthalocyanine pigment; formulation and application affect appearance. No universal RGB inferred. |
| Phthalocyanine green (pigment) / MFA Boston / CAMEO | Blue-shade chlorinated and yellow-shade brominated/chlorinated forms are distinct material contexts. |
| Payne’s gray (mixture) / MFA Boston / CAMEO | Dark gray mixtures can use different blue pigments; this is not one fixed chemical or digital specification. |
| Pearl (gem material) / GIA | Pearls have varied body colors and luster; a flat web patch cannot specify every specimen. |
| Peridot (gem material) / GIA | Green, yellow-green and greenish-yellow specimens; no universal sRGB triplet follows from the name. |
| Palatinate (academic dress) / Durham University | Primary terminology evidence for palatinate silk. Numerical brand colors require their own accessible specification; none inferred here. |
| Philippine flag colors / Republic Act No.8491 | Blue 80173; white 80001; red 80108; golden yellow 80068. These references do not authenticate the supplied hex values or the wider list of Philippine-named colors. |
| Pearl Shimmer / Resene | Named product preview without admitted numerical RGB/hex fields. Surface appearance is not replaced by sampled image pixels. |
| Patisserie / PPG | Named metallic product with no admitted RGB/hex numerical field on the consulted page. No screenshot pixels are substituted. |
| Pink Smolder / PPG | Named metallic product with no admitted RGB/hex numerical field on the consulted page. No screenshot pixels are substituted. |
| Primrose Promise / PPG | Named metallic product with no admitted RGB/hex numerical field on the consulted page. No screenshot pixels are substituted. |
| Pink Blink / PPG | Named metallic product with no admitted RGB/hex numerical field on the consulted page. No screenshot pixels are substituted. |

Material names, academic-dress terminology, and Philippine cable references retain their own evidence boundaries. Nonproduct and unsuccessful page checks are recorded separately. PPG is a bounded selection; Jotun is a 989-record regional inventory. No missing specification is invented from pixels. [6, 15, 23–28, 40, 41]

# Reconciliation of the earlier P list

All 256 rows from the supplied p-colors.txt are accounted for below. An exact match establishes a documented source context, not the original author’s unstated intent. Same-name values from different issuers are not interchangeable. Original legacy families remain comparison input. [33]

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL001 / Pacific Blue 1 / #009DC4 / blue | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0012 |
| PL002 / Pacific Blue 2 / #1CA9C9 / blue | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |
| PL003 / Painite / #6B4947 / brown | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL004 / Pakistan Green / #006600 / green | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL005 / Palatinate Blue / #273BE2 / blue | Legacy numerical claim unverified | Durham academic-dress terminology does not authenticate this digital value. The linked identity PDF was unavailable; retain the legacy hex as unverified rather than inventing a brand conversion. |
| PL006 / Palatinate Purple / #682860 / purple | Legacy numerical claim unverified | Durham academic-dress terminology does not authenticate this digital value. The linked identity PDF was unavailable; retain the legacy hex as unverified rather than inventing a brand conversion. |
| PL007 / Pale / #FFF9D0 / yellow | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0092 |
| PL008 / Pale Aqua 1 / #B8FFEB / blue | Exact source-specific match | Matched source contexts retain the supplied number. Apply the visually reviewed GKBook family Green. Gray/grey or CSS spacing differences are comparison normalization only; preserve the actual source name. Matched IDs: P0097 |
| PL009 / Pale Aqua 2 / #BED3E5 / blue | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |
| PL010 / Pale Blue 1 / #AFEEEE / blue | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |
| PL011 / Pale Blue 2 / #D0FEFE / blue | Exact source-specific match | Matched source contexts retain the supplied number. Apply the visually reviewed GKBook family White. Gray/grey or CSS spacing differences are comparison normalization only; preserve the actual source name. Matched IDs: P0112 |
| PL012 / Pale Brown 1 / #987654 / brown | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |
| PL013 / Pale Brown 2 / #B1916E / brown | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0117 |

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL014 / Pale Carmine / #AF4035 / red | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL015 / Pale Cerulean / #9BC4E2 / blue | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL016 / Pale Chestnut / #DDADAF / brown | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL017 / Pale Cornflower Blue / #ABCDEF / blue | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL018 / Pale Cyan 1 / #87D3F8 / blue | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL019 / Pale Cyan 2 / #B7FFFA / blue | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0139 |
| PL020 / Pale Dogwood / #ED7A9B / pink | Same name, different consulted values | For the explicitly identified 13-1404 TCX context, the consulted dealer gives #EDCDC2 consistently; Pantone's indexed owner page confirms the name/code. The supplied #ED7A9B is unverified. A replacement must retain the dealer-preview qualification. |
| PL021 / Pale Gold / #FDDE6C / yellow | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0153 |
| PL022 / Pale Goldenrod / #EEE8AA / yellow | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0154, P0155 |
| PL023 / Pale Gray / #FDFDFE / gray | Exact source-specific match | Matched source contexts retain the supplied number. Apply the visually reviewed GKBook family White. Gray/grey or CSS spacing differences are comparison normalization only; preserve the actual source name. Matched IDs: P0172 |
| PL024 / Pale Green 1 / #98FB98 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0156, P0162 |
| PL025 / Pale Green 2 / #C7FDB5 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0163 |
| PL026 / Pale Lavender 1 / #DCD0FF / purple | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL027 / Pale Lavender 2 / #EECFFE / purple | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0186 |
| PL028 / Pale Light Green / #B1FC99 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0189 |
| PL029 / Pale Lilac / #E4CBFF / purple | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0193 |

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL030 / Pale Lime / #BEFD73 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0197 |
| PL031 / Pale Lime Green / #B1FF65 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0198 |
| PL032 / Pale Magenta 1 / #D767AD / pink | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0205 |
| PL033 / Pale Magenta 2 / #F984E5 / pink | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL034 / Pale Magenta Pink / #FF99CC / pink | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL035 / Pale Mauve / #FED0FC / purple | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0210 |
| PL036 / Pale Olive / #B9CC81 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0225 |
| PL037 / Pale Olive Green / #B1D27B / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0227 |
| PL038 / Pale Orange / #FFA756 / orange | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0228 |
| PL039 / Pale Peach / #FFE5AD / orange | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0238 |
| PL040 / Pale Pink 1 / #FADADD / pink | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL041 / Pale Pink 2 / #FFCFDC / pink | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0252 |
| PL042 / Pale Purple 1 / #B790D4 / purple | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0259 |
| PL043 / Pale Purple 2 / #FAE6FA / purple | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL044 / Pale Red / #D9544D / red | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0261 |
| PL045 / Pale Red Violet / #DB7093 / purple | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL046 / Pale Robin Egg Blue / #96DED1 / blue | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL047 / Pale Rose / #FDC1C5 / pink | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0265 |
| PL048 / Pale Salmon / #FFB19A / orange | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0271 |
| PL049 / Pale Sky Blue / #BDF6FE / blue | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0279 |
| PL050 / Pale Taupe / #BC987E / brown | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL051 / Pale Teal / #82CBB2 / blue | Exact source-specific match | Matched source contexts retain the supplied number. Apply the visually reviewed GKBook family Green. Gray/grey or CSS spacing differences are comparison normalization only; preserve the actual source name. Matched IDs: P0290 |
| PL052 / Pale Turquoise / #A5FBD5 / blue | Exact source-specific match | Matched source contexts retain the supplied number. Apply the visually reviewed GKBook family Green. Gray/grey or CSS spacing differences are comparison normalization only; preserve the actual source name. Matched IDs: P0296 |
| PL053 / Pale Violet 1 / #CC99FF / purple | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL054 / Pale Violet 2 / #CEAEFA / purple | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0306 |
| PL055 / Pale Yellow / #FFFF84 / yellow | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0319 |
| PL056 / Palm Leaf / #6F9940 / green | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL057 / Panasonic Blue / #0040BE / blue | Same name, different consulted values | The January 2021 Panasonic industrial guide explicitly gives #0041C0, RGB 0,65,192. The supplied #0040BE is not an exact match. Use the dated guide context when documenting the verified alternative. |
| PL058 / Pansy Purple / #78184A / purple | Historical name; legacy hex unverified | Retain the historical meaning and category references; omit the unsupported number from the admitted digital directory. |
| PL059 / Paolo Veronese Green / #009B7D / green | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL060 / Papaya Whip / #FFEFD5 / yellow | Exact source-specific match | Matched source contexts retain the supplied number. Apply the visually reviewed GKBook family White. Gray/grey or CSS spacing differences are comparison normalization only; preserve the actual source name. Matched IDs: P0408, P0410 |

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL061 / Paradise Pink / #E63E62 / pink | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL062 / Parakeet Blue / #7EB6FF / blue | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL063 / Parchment 1 / #F1E9D2 / yellow | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL064 / Parchment 2 / #FEFCAF / yellow | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0485 |
| PL065 / Parrot Pink / #D998A0 / pink | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL066 / Pastel Blue 1 / #A2BFFE / blue | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0605 |
| PL067 / Pastel Blue 2 / #AEC6CF / blue | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL068 / Pastel Brown / #836953 / brown | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL069 / Pastel Gray / #CFCFC4 / gray | Historical name; legacy hex unverified | Retain the historical meaning and category references; omit the unsupported number from the admitted digital directory. |
| PL070 / Pastel Green 1 / #77DD77 / green | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL071 / Pastel Green 2 / #B0FF9D / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0611 |
| PL072 / Pastel Magenta / #F49AC2 / pink | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL073 / Pastel Orange 1 / #FF964F / orange | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0623 |
| PL074 / Pastel Orange 2 / #FFB347 / orange | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL075 / Pastel Pink 1 / #DEA5A4 / pink | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL076 / Pastel Pink 2 / #FFBACD / pink | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0630 |
| PL077 / Pastel Purple 1 / #B39EB5 / purple | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL078 / Pastel Purple 2 / #CAA0FF / purple | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0631 |
| PL079 / Pastel Red 1 / #DB5856 / red | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0632 |
| PL080 / Pastel Red 2 / #FF6961 / red | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL081 / Pastel Violet / #CB99C9 / purple | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL082 / Pastel Yellow 1 / #FDFD96 / yellow | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL083 / Pastel Yellow 2 / #FFFE71 / yellow | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0641 |
| PL084 / Paua / #1F005E / purple | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL085 / Paynes Gray / #536878 / gray | Historical name; legacy hex unverified | Retain the historical meaning and category references; omit the unsupported number from the admitted digital directory. |
| PL086 / Pea / #A4BF20 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0701 |
| PL087 / Pea Green / #8EAB12 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0874 |
| PL088 / Pea Soup / #929901 / brown | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0960 |
| PL089 / Pea Soup Green / #94A617 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0961 |
| PL090 / Peach 1 / #FFB07C / orange | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0732 |
| PL091 / Peach 2 / #FFCBA4 / orange | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0727 |
| PL092 / Peach 3 / #FFE5B4 / orange | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL093 / Peach Burst / #F39998 / orange | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL094 / Peach Fuzz / #FFBE98 / orange | Exact source-specific match | The supplied #FFBE98 matches the dealer’s Pantone 13-1023 TCX preview. An indexed official 2024 guide excerpt agrees; full PDF retrieval was unavailable. Keep the admitted record’s dealer qualification and distinguish other makers’ Peach Fuzz values. Matched IDs: P0782 |
| PL095 / Peach Orange / #FFCC99 / orange | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL096 / Peach Puff / #FFDAB9 / orange | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0813, P0814 |
| PL097 / Peach Yellow / #FADFAD / yellow | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |
| PL098 / Peachy Pink / #FF9A8A / pink | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0851 |
| PL099 / Peacock Blue / #016795 / blue | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0856 |
| PL100 / Pear 1 / #CBF85F / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P0890 |
| PL101 / Pear 2 / #D1E231 / green | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |
| PL102 / Pearl / #EAE0C8 / white | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |
| PL103 / Pearly Purple / #B768A2 / purple | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL104 / Peridot / #E6E200 / yellow | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |
| PL105 / Periwinkle 1 / #8E82FE / blue | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1154 |
| PL106 / Periwinkle 2 / #C3CDE6 / blue | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1151 |
| PL107 / Periwinkle 3 / #CCCCFF / blue | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |
| PL108 / Periwinkle Blue / #8F99FB / blue | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1156 |
| PL109 / Permanent Geranium Lake / #E12C2C / red | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL110 / Perrywinkle / #8F8CE7 / blue | Exact source-specific match | Preserve perrywinkle as the exact xkcd survey spelling with #8F8CE7. It is a distinct source label; do not silently change it to periwinkle. Matched IDs: P1176 |
| PL111 / Persian Blue / #1C39BB / blue | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL112 / Persian Indigo / #32127A / blue | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL113 / Persian Orange / #D99058 / orange | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL114 / Persian Pink / #F77FBE / pink | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL115 / Persian Red / #CC3333 / red | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL116 / Persian Rose / #FE28A2 / pink | Historical name; legacy hex unverified | Retain the historical meaning and category references; omit the unsupported number from the admitted digital directory. |
| PL117 / Persimmon / #EC5800 / orange | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL118 / Peru / #CD853F / orange | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1215, P1216 |
| PL119 / Petrol / #005F6A / blue | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1259 |
| PL120 / Petunia / #470659 / purple | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL121 / Pewter Blue / #8BA8B7 / blue | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL122 / Philippine Blue / #0038A7 / blue | Legacy numerical claim unverified | No consulted primary numerical source verifies this supplied Philippine-named hex. Republic Act No.8491 section 28 uses cable references for flag blue, white, red, and golden yellow; those references do not establish this hex or the wider palette. |
| PL123 / Philippine Bronze / #6E3A07 / brown | Legacy numerical claim unverified | No consulted primary numerical source verifies this supplied Philippine-named hex. Republic Act No.8491 section 28 uses cable references for flag blue, white, red, and golden yellow; those references do not establish this hex or the wider palette. |
| PL124 / Philippine Brown / #5D1916 / brown | Legacy numerical claim unverified | No consulted primary numerical source verifies this supplied Philippine-named hex. Republic Act No.8491 section 28 uses cable references for flag blue, white, red, and golden yellow; those references do not establish this hex or the wider palette. |

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL125 / Philippine Gold / #B17304 / yellow | Legacy numerical claim unverified | No consulted primary numerical source verifies this supplied Philippine-named hex. Republic Act No.8491 section 28 uses cable references for flag blue, white, red, and golden yellow; those references do not establish this hex or the wider palette. |
| PL126 / Philippine Gray / #8C8C8C / gray | Legacy numerical claim unverified | No consulted primary numerical source verifies this supplied Philippine-named hex. Republic Act No.8491 section 28 uses cable references for flag blue, white, red, and golden yellow; those references do not establish this hex or the wider palette. |
| PL127 / Philippine Green / #008543 / green | Legacy numerical claim unverified | No consulted primary numerical source verifies this supplied Philippine-named hex. Republic Act No.8491 section 28 uses cable references for flag blue, white, red, and golden yellow; those references do not establish this hex or the wider palette. |
| PL128 / Philippine Orange / #FF7300 / orange | Legacy numerical claim unverified | No consulted primary numerical source verifies this supplied Philippine-named hex. Republic Act No.8491 section 28 uses cable references for flag blue, white, red, and golden yellow; those references do not establish this hex or the wider palette. |
| PL129 / Philippine Pink / #FA1A8E / pink | Legacy numerical claim unverified | No consulted primary numerical source verifies this supplied Philippine-named hex. Republic Act No.8491 section 28 uses cable references for flag blue, white, red, and golden yellow; those references do not establish this hex or the wider palette. |
| PL130 / Philippine Red / #CE1127 / red | Legacy numerical claim unverified | No consulted primary numerical source verifies this supplied Philippine-named hex. Republic Act No.8491 section 28 uses cable references for flag blue, white, red, and golden yellow; those references do not establish this hex or the wider palette. |
| PL131 / Philippine Silver / #B3B3B3 / gray | Legacy numerical claim unverified | No consulted primary numerical source verifies this supplied Philippine-named hex. Republic Act No.8491 section 28 uses cable references for flag blue, white, red, and golden yellow; those references do not establish this hex or the wider palette. |
| PL132 / Philippine Violet / #81007F / purple | Legacy numerical claim unverified | No consulted primary numerical source verifies this supplied Philippine-named hex. Republic Act No.8491 section 28 uses cable references for flag blue, white, red, and golden yellow; those references do not establish this hex or the wider palette. |
| PL133 / Philippine Yellow / #FECB00 / yellow | Legacy numerical claim unverified | No consulted primary numerical source verifies this supplied Philippine-named hex. Republic Act No.8491 section 28 uses cable references for flag blue, white, red, and golden yellow; those references do not establish this hex or the wider palette. |
| PL134 / Phlox / #DF00FF / purple | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL135 / Phthalo Blue / #000F89 / blue | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL136 / Phthalo Green / #123524 / green | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL137 / Picotee Blue / #2E2787 / blue | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL138 / Picton Blue / #45B1E8 / blue | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL139 / Pictorial Carmine / #C30B4E / red | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL140 / Pig Pink 1 / #E78EA5 / pink | Exact source-specific match | The xkcd label pig pink exactly establishes #E78EA5; retain its survey spelling and source. It is separate from Crayola Piggy Pink. Matched IDs: P1384 |
| PL141 / Pig Pink 2 / #FDD7E4 / pink | Exact source-specific match | The Crayola name is Piggy Pink, currently #FDD7E4. The supplied value matches after this explicit name cross-reference. Matched IDs: P1381 |
| PL142 / Piggy Pink / #FDDDE6 / pink | Same name, different consulted values | The current Crayola named preview is #FDD7E4; the supplied #FDDDE6 is not verified by it. Do not infer a physical product change from the different web values. |
| PL143 / Pine / #2B5D34 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1411 |
| PL144 / Pine Green / #01786F / green | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |
| PL145 / Pine Green 1 / #01796F / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1445 |
| PL146 / Pine Green 2 / #0A481E / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1450 |
| PL147 / Pine Tree / #2A2F23 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1469 |
| PL148 / Pineapple / #563C0D / brown | Historical name; legacy hex unverified | Retain the historical meaning and category references; omit the unsupported number from the admitted digital directory. |
| PL149 / Pink 1 / #D74894 / pink | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |
| PL150 / Pink 2 / #FFC0CB / pink | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1473, P1475 |
| PL151 / Pink Diamond / #F6D6DE / pink | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL152 / Pink Diamond Web / #F0D3DC / pink | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL153 / Pink Flamingo / #FC74FD / pink | Same name, different consulted values | Current Crayola CSS publishes the anomalous RGB 242,88,62 / #F2583E. The supplied #FC74FD remains unverified by that page. The directory flags the anomaly and does not assert physical reformulation. |
| PL154 / Pink Lace / #FFDDF4 / white | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL155 / Pink Lavender / #D8B2D1 / purple | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL156 / Pink Orange / #FF9966 / orange | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL157 / Pink Pearl 1 / #B07080 / pink | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL158 / Pink Pearl 2 / #E7ACCF / pink | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL159 / Pink Purple 1 / #DB4BDA / purple | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1697 |
| PL160 / Pink Purple 2 / #EF1DE7 / purple | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1696 |
| PL161 / Pink Raspberry / #980036 / pink | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL162 / Pink Red / #F5054F / red | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1704 |
| PL163 / Pink Sherbet 1 / #F78FA7 / pink | Same name, different consulted values | Crayola spells the current name Pink Sherbert and publishes #F7A38E. The supplied value does not match that current preview and remains unverified in its original context. |
| PL164 / Pink Sherbet 2 / #F7A38E / pink | Exact source-specific match | Crayola spells the current name Pink Sherbert and publishes #F7A38E. This supplied value matches that named preview; correct the spelling and retain the issuer. Matched IDs: P1726 |
| PL165 / Pinkish / #D46A7E / pink | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1594 |
| PL166 / Pinkish Brown / #B17261 / brown | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1597 |
| PL167 / Pinkish Gray / #C8ACA9 / gray | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1598 |
| PL168 / Pinkish Orange / #FF724C / orange | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1599 |
| PL169 / Pinkish Purple / #D648D7 / purple | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1600 |
| PL170 / Pinkish Red / #F10C45 / red | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1602 |

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL171 / Pinkish Tan / #D99B82 / brown | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1603 |
| PL172 / Pinky / #FC86AA / pink | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1768 |
| PL173 / Pinky Purple / #C94CBE / purple | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1772 |
| PL174 / Pinky Red / #FC2647 / red | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1773 |
| PL175 / Piss Yellow / #DDD618 / yellow | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1812 |
| PL176 / Pistachio 1 / #93C572 / green | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL177 / Pistachio 2 / #C0FA8B / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1818 |
| PL178 / Pixie Powder / #391285 / purple | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL179 / Platinum / #E5E4E2 / white | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL180 / Plum 1 / #8E4585 / purple | Same name, different consulted values | Keep this legacy value unverified. Other sources' same-name previews are separately documented conventions, not interchangeable corrections. |
| PL181 / Plum 2 / #DDA0DD / purple | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1941, P1945 |
| PL182 / Plum Purple / #4E0550 / purple | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P1993 |
| PL183 / Plump Purple / #5946B2 / purple | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL184 / Poison Green / #40FD14 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P2054 |
| PL185 / Poker Green / #35654D / green | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL186 / Police Blue / #374F6B / blue | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL187 / Polished Pine / #5DA493 / green | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |

| Legacy entry / value | Evidence outcome | Resolution / matched IDs |
|---|---|---|
| PL188 / Poo / #8F7303 / brown | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P2145 |
| PL189 / Poo Brown / #885F01 / brown | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P2146 |
| PL190 / Poop / #7F5E00 / brown | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P2170 |
| PL191 / Poop Brown / #7A5901 / brown | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P2171 |
| PL192 / Poop Green / #6F7C00 / green | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P2172 |
| PL193 / Poppy Petal / #F6A08C / pink | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL194 / Popstar / #BE4F62 / red | Same name, different consulted values | Keep this legacy value unverified. Other sources’ same-name previews are separately documented conventions, not interchangeable corrections. |
| PL195 / Portland Orange / #FF5A36 / orange | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL196 / Powder Blue 1 / #B0E0E6 / blue | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P2348, P2355 |
| PL197 / Powder Blue 2 / #B1D1FC / blue | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P2356 |
| PL198 / Powder Pink / #FFB2D0 / pink | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P2376 |
| PL199 / Prairie Gold / #E1CA7A / yellow | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL200 / Primary Blue / #0804F9 / blue | Exact source-specific match | Retain only with the matched source and code. Use the reviewed GKBook family; the original family remains comparison input. Matched IDs: P2526 |
| PL201 / Princess Perfume / #FF85CF / pink | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |
| PL202 / Princeton Orange / #F58025 / orange | Exact source-specific match | The supplied #F58025 is explicitly documented for orange on black in Princeton’s public accessibility guide. Retain that context. Other dated or departmental values remain separate; independently calculated contrast is preserved rather than copying the page’s blanket small-text claim. Matched IDs: P2570 |
| PL203 / Process Cyan / #00B9F2 / blue | Legacy numerical claim unverified | A traceable source-specific numerical specification is still needed. No replacement is inferred from the name. |

| PL256 / Putty / #BEAE8A / yellow | Exact source-specific match | Matched source contexts retain the supplied number. Apply the visually reviewed GKBook family Brown. Gray/grey or CSS spacing differences are comparison normalization only; preserve the actual source name. Matched IDs: P2972 |

# Glossary

| Term | Meaning |
|---|---|
| Color name | A label whose meaning depends on its source or context. |
| Source-specific identity | A name together with its issuer, system, code, market, collection, or version. |
| Hexadecimal | Base-16 notation; #RRGGBB encodes three eight-bit channels. |
| sRGB | The color encoding used for this edition’s illustrations and calculations. |
| LRV | Source-reported reflectance metadata, separate from calculated preview luminance. |
| Shade family | GKBook’s reviewed visual navigation category. |
| Alias | A documented spelling alternative or an explicitly identified lookup label. |
| Dealer approximation | Third-party preview evidence, not an authenticated licensed physical standard. |
| Historical category | An ISCC–NBS descriptive region rather than a unique RGB triplet. |
| Pigment identity | A material designation requiring formulation and application context. |
| Relative luminance | A weighted quantity calculated from linearized sRGB. |
| Contrast ratio | A luminance comparison for a specified foreground/background pair. |
| Held record | A source row excluded from the numerical atlas because its fields conflict. |
| Name-only evidence | Evidence for a name or material without an admitted digital specification. |
| Legacy reconciliation | An accounting of every supplied older entry against the consulted evidence. |

# Frequently asked questions

## What are some colors that start with P?

Pink, purple, peach, plum, periwinkle, Prussian blue, pearl, and powder blue are examples. Choose the source before assigning an exact value.

## What is the hex code for purple?

CSS purple is #800080. X11 purple is #A020F0; xkcd purple is #7E1E9C. Preserve the system label. [13, 17, 18]

## What is unusual about Pink Flamingo?

The consulted Crayola page’s named field is #F2583E and is explicitly flagged as anomalous. This documents the web preview, not a claim that the physical crayon changed. [16]

## What is the corrected Pale Dogwood value?

The consulted dealer’s 13-1404 TCX entry is #EDCDC2. The supplied #ED7A9B remains unverified; retain the dealer qualification rather than calling the replacement a universal licensed specification. [12, 33, 42]

## Can Princeton Orange be assigned one universal hex?

The public guides consulted have different dated or departmental contexts. The directory documents the alumni handout’s #EE7F2D and the public accessibility page’s #F58025 and #E77500 examples. Use the applicable current identity guidance for new work. [36–39, 44]

## Are pigment names exact RGB colors?

A material or pigment mixture does not imply one universal screen triplet. A particular product or software convention may supply a separate documented number. [23–26]

## How many P colors are there?

This edition contains 2,982 digital records and 448 historical lexical entries within stated sources. Neither is a worldwide total.

## Can the swatches specify physical paint?

Use the current manufacturer’s code, market, finish, and physical reference. A screen preview does not replace a sample or a licensed physical standard.
