Colors That Start With T

Names, source-specific digital values, historical meanings, and independently reviewed shade families

1,661 digital records	188 historical entries	12 shade families
Exact source previews	Documented category meanings	Independent visual review

An illustrated reference for high school and college readers, with a source-linked alphabetical directory, historical naming evidence, worked examples, and a complete companion atlas.

Research checked: October 16, 2026
Language: US English
Scope: International, source-bounded coverage.

Overview

Names that carry different kinds of meaning

Tan, teal, thistle, tomato and turquoise are exact CSS color keywords. Other T names identify paints, textile standards, crayons, gemstones, pigments, historical categories or informal naming-survey results. A useful color encyclopedia must show which kind of claim it is making. The same word can legitimately have different values in different documented contexts; an attractive swatch alone is not evidence of an official specification.

What this edition contains

This edition contains 1,661 source-specific digital records, 1,639 distinct RGB triplets and 25 source, system or version groups. Every admitted patch has an independently reviewed GKBook family. A separate historical directory documents 188 headwords and 234 source assignments. 92 contradictory or malformed source rows remain outside the atlas. These totals describe the consulted evidence, not every T color ever named.

Read the source before using the number

An entry combines a name with its issuer or dataset, identifier, numerical value and evidence note. Keep those fields together when copying it. A maker preview, a software definition, a dealer approximation and an older institutional guide have different evidential status. Numerical agreement establishes that hex and RGB describe the same encoded triplet; it does not establish a physical match, product availability or a right to reproduce a proprietary library.

How the earlier list is handled

All 84 supplied older entries are preserved in the reconciliation appendix, including their original names, values and families. A match is tied to its documented context. Unsupported numbers remain identifiable as legacy claims. The earlier audit is checked against current evidence rather than treated as authority: its proposed Tufts Blue replacement, for example, conflicts with the current university guide. [33, 36]

At a glance

Measure	This edition
Digital records	1,661; each source context counted once
Distinct displayed names / RGB triplets	1343 names / 1639 triplets
Evidence groups	25 source/system/version groups
Historical naming entries	188; no digital values invented
Held numerical records	92; excluded from the verified atlas
Alias rows combined	0; alternative names remain searchable in the data

Teal: one name, several source contexts

Compare the documented values

CSS teal is #008080, RGB (0, 128, 128). Benjamin Moore Teal 2055-10 has the consulted preview #144552, while the xkcd survey label teal is #029386. These three records are not interchangeable. Each answers a different question: a software keyword, a particular paint identity, or a color-naming dataset. [2, 13, 17]

Select a value for a stated purpose

For a CSS declaration using the keyword, teal has the specified software meaning. For a coating, identify the maker and product code and evaluate a suitable physical sample in the intended light and finish. For a dataset example, preserve the dataset name and release context. Do not average unrelated values to manufacture a supposedly universal teal.

Blue and green are editorial boundaries

Teal lies near the blue-green boundary, but the twelve-family navigation system has no separate Cyan or Teal category. This edition places each actual patch in Blue or Green according to its visual character, with dark or muted examples sometimes falling in Black or Gray. This is an editorial grouping; it never changes the original name or numerical channels.

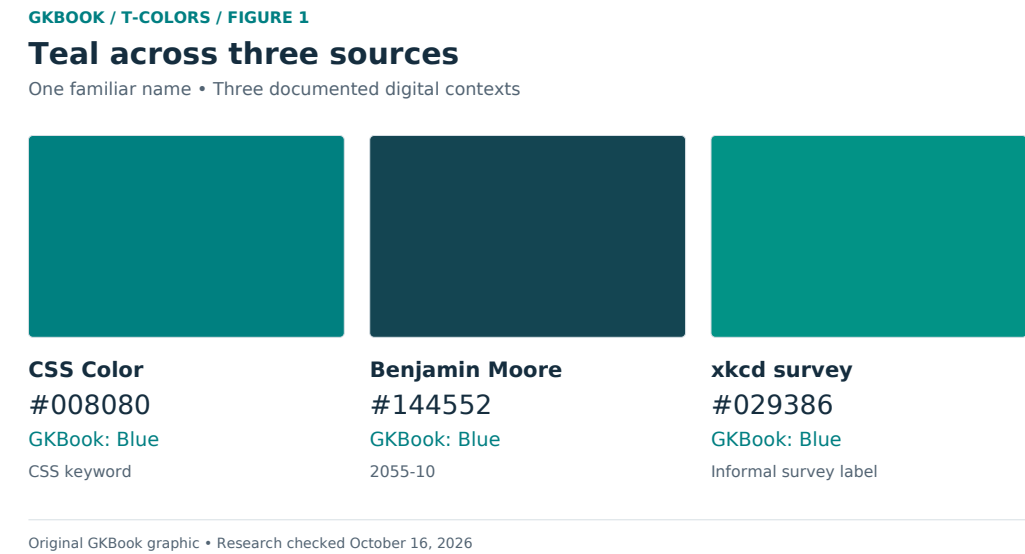

Figure 1. Teal across three sources Preserve the source and code. A shared name does not make these previews interchangeable.

Record / name	Source	Hex	Family
T0312 / teal	CSS Color	#008080	Blue
T0311 / Teal	Benjamin Moore	#144552	Blue
T0317 / teal	xkcd survey	#029386	Blue

The five opaque T keywords and transparent

Exact named-color definitions

The five opaque T keywords in the consulted CSS table are tan #D2B48C (210, 180, 140), teal #008080 (0, 128, 128), thistle #D8BFD8 (216, 191, 216), tomato #FF6347 (255, 99, 71), and turquoise #40E0D0 (64, 224, 208). These tokens are case-insensitive software names with exact sRGB meanings. [17]

Transparent is a special case

The CSS keyword transparent means fully transparent black: `rgba(0, 0, 0, 0)`, equivalently `#00000000` in eight-digit RGBA notation. Its alpha is zero. It does not produce an opaque black patch, and it is not a sixth opaque T swatch. It is documented separately because this atlas contains opaque six-digit RGB values. [17]

Software vocabularies have boundaries

X.Org rgb 1.1.1 includes T names and numbered entries such as tomato1, tomato2 and turquoise4. Those numbered names are not CSS named-color keywords. Conversely, ordinary terms such as taupe, tangerine, Tiffany Blue and Tyrian Purple are not added to CSS merely by appearing in a general color list. [17, 18]

Reading hexadecimal and RGB

Work through turquoise

The six-digit code #40E0D0 divides into 40, E0 and D0. In base sixteen, 40 equals 4 times 16, or 64; E0 equals 14 times 16, or 224; D0 equals 13 times 16, or 208. Thus its RGB form is exactly (64, 224, 208). A disagreement between those two forms is detectable without judging the appearance of a swatch.

Identify the encoding

The preview calculations use sRGB. Encoded RGB channels are not percentages of paint and are not directly proportional to emitted light. The encoding must be accounted for before calculating relative luminance. A number written as RGB without a color-space context is an incomplete color specification. [19, 20]

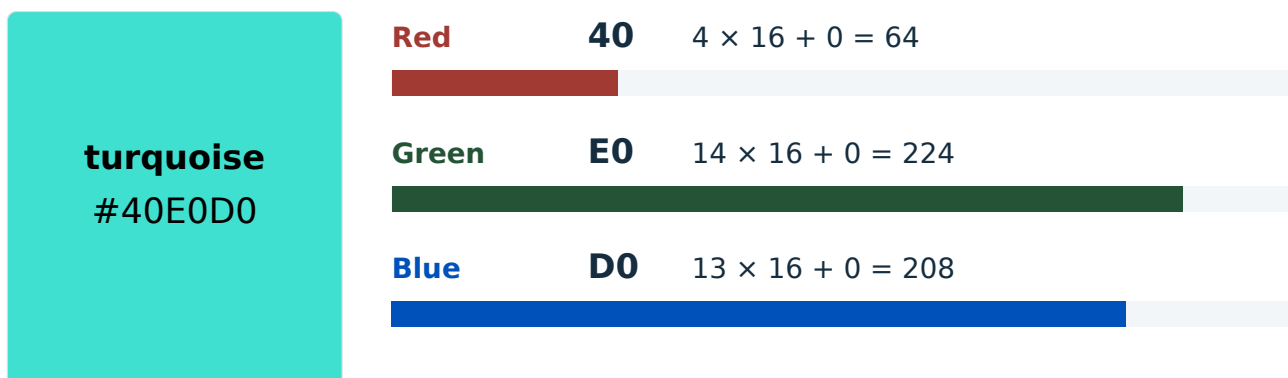

Know the limits of the display

A flat digital patch omits surface texture, transparency, gloss, fluorescence and metallic effects. A photograph adds its own illumination and processing. Source LRVs are retained as source fields; they are not silently equated with luminance calculated from an online preview. These distinctions matter when a convenient web color is used to discuss a physical object.

GKBOOK / T-COLORS / FIGURE 2

Reading #40E0D0

CSS turquoise • RGB (64, 224, 208)

Encoded channel values; not pigment-mixing proportions.

Original GKBook graphic • Research checked October 16, 2026

Figure 2. Reading #40E0D0 Hexadecimal and decimal RGB are exact alternative notations. Previews are interpreted as sRGB for this edition.

How the shade families were reviewed

Classify the actual patch

Every distinct admitted RGB patch was visually inspected on a neutral surround, then reviewed in family montages. This changed 546 provisional record labels. Identical triplets have the same family even if their source names differ. Black, Blue, Brown, Gray, Green, Orange, Pink, Purple, Red, Violet, White and Yellow are navigation groups, not measured color-difference tolerances.

Names are preserved, even when the grouping differs

Behr Thistle QE-45 is #879281 and is grouped here in Green; CSS thistle is #D8BFD8 and is grouped in Purple. Crayola Tan #FA9D5A is grouped in Orange, while CSS tan #D2B48C is grouped in Brown. The names remain unchanged because they are part of the source identity. [1, 16, 17]

A useful distinction between Purple and Violet

The Purple family generally gathers red-leaning or balanced purples, mauves and plums; Violet generally gathers blue-leaning purples and selected lavenders. TCU Purple #4D1979 is placed in Violet in this navigation system. That judgment does not rename the university color, dispute its institutional meaning or imply a change to its published specification. [38]

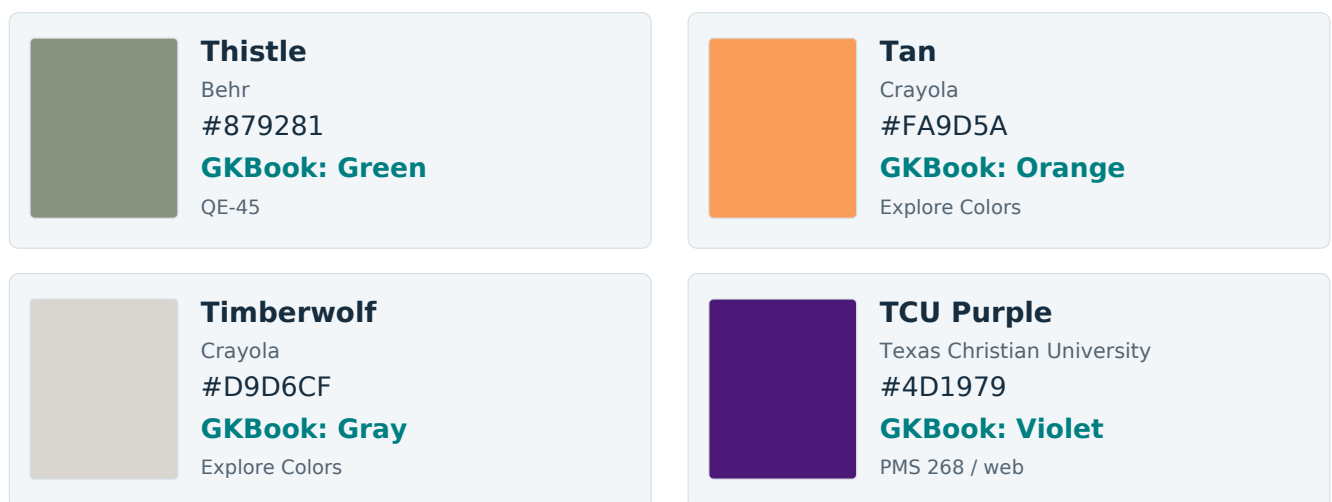

A family correction is not numerical authentication

17 of the 84 older patch families are revised. An unsupported legacy number can still be visually assessed, but that assessment does not make the number authoritative. The reconciliation therefore reports verification status and family judgment separately. Manufacturer categories are also retained separately from GKBook families. [33]

GKBOOK / T-COLORS / FIGURE 3

Read the swatch, keep the name

Source names and editorial families answer different questions

Original GKBook graphic • Research checked October 16, 2026

Figure 3. Read the swatch, keep the name The family is a reviewed navigation judgment. Original source names and numerical values are preserved.

Tiffany Blue, Tufts Blue and other institutional colors

Tiffany Blue requires a clear boundary

Tiffany describes its custom Pantone 1837 Blue as not publicly available. The supplied #0ABAB5 is not authenticated by that owner statement, and replacing it with another popular internet hex would not solve the evidence problem. The second supplied value, #7BF2DA, exactly matches xkcd tiffany blue; it can be retained in that informal survey context, without presenting it as Tiffany branding. [13, 23, 33]

Tufts Blue: correcting the older audit

The current Tufts guide explicitly publishes Tufts Blue as #3E8EDE and RGB (62, 142, 222), alongside PMS 279. The earlier audit proposed #3172AE as a replacement. That recommendation should not be carried forward as current guidance. Retain #3E8EDE with its university source, and evaluate readability separately. Tufts Brown is separately specified as #63493A. [33, 36]

Other current owner specifications

The University of Tennessee, Knoxville publishes Tennessee Orange #FF8200, RGB (255, 130, 0). Texas Christian University publishes TCU Purple #4D1979, RGB (77, 25, 121). These are owner-specific digital specifications. Their accompanying print references do not make the hex values universal conversions for every use of the corresponding printing inks. [37, 38]

An older guide can still be accurately documented

Georgia Tech's Body Content Styles document names Tech Gold #B3A369 and three related variants. These are retained as legacy guide contexts. The institution announced updated standards in June 2026, and its consulted current page lists Gold #B39051. The article does not silently label the old guide current or add a T prefix to the newer name. [39, 40]

Twitter Blue is a dated brand context

The October 2020 Twitter guide describes blue and white logo use, but its consulted text does not establish the supplied #26A7DE. X's August 2023 guide specifies a black-and-white primary palette. Retain the legacy claim as unverified and distinguish the dated Twitter and X materials; do not infer an exact historical blue by sampling a logo image. [33, 42, 43]

Tyrian purple, pigments and material names

Tyrian purple is a dye history

CAMEO identifies Tyrian purple as a historical dye obtained from marine mollusks and used in ancient textiles and later manuscripts. That evidence identifies a material tradition; it does not establish #66023C as an exact ancient standard. The NBS dictionary also includes a Tyrian Purple horticultural-chart name, which is a different kind of evidence. The shared words do not prove chemical or numerical equivalence. [22, 24]

Titanium white and titanium yellow

Titanium white commonly refers to titanium-dioxide-based white pigments; commercial formulations may contain other pigments or fillers. CAMEO identifies titanium yellow as Pigment Yellow 53, a nickel-antimony-titanium oxide pigment. Neither material identity supplies one universal RGB triplet. In particular, the legacy Titanium Yellow #EEE600 remains numerically unverified by this material evidence. [28, 29, 33]

Terre verte and terracotta

Terre verte is green-earth pigment terminology. Terracotta refers to fired-clay material, with applications and finishes that cannot be represented by a single mandatory screen color. The xkcd dataset independently contains terra cotta, terracotta and terracota as separate spellings with different values. Preserve those survey labels when using their numbers instead of silently merging them into a supposed material standard. [13, 30, 31]

Trypan Blue illustrates the importance of physical state

The consulted manufacturer specification for Trypan Blue describes a powder ranging from dark purple to dark brown or black. It does not provide a universal screen hex for the dye. The legacy #1C05B3 can be classified as a digital patch, but the chemical name alone does not authenticate it. A sample's state and observation conditions matter. [33, 41]

Turquoise, topaz and tourmaline

A mineral and a CSS keyword are different references

GIA describes turquoise as a hydrated copper-and-aluminum phosphate mineral and documents blue and greenish color ranges. CSS turquoise #40E0D0 is an exact software definition. A named paint called Turquoise is a product context. These uses can coexist without any one of them defining the appearance of every specimen or product. [17, 25]

Topaz does not have just one color

Topaz occurs across a broad range of colors, and colorless material is common; some material is treated to produce blue. GIA also notes pleochroism, meaning appearance can vary with crystal direction. The xkcd label topaz #13BBAF is valid evidence of that survey entry, not a universal gem specification or a correction to every amber-colored use of the word. [13, 26]

Tourmaline is similarly varied

GIA documents a wide color range in tourmaline, arising from several causes. The historical dictionary includes Tourmaline, Tourmaline Green and Tourmaline Pink in distinct descriptive contexts. A single legacy #86A1A9 cannot stand for that entire material range merely because it is labeled Tourmaline. Keep specimen descriptions, historical categories and source-specific digital names separate. [22, 27, 33]

Historical T names: evidence without invented RGB

Read the dictionary in its own terms

NBS Special Publication 440 brings together earlier naming systems and assigns their terms to ISCC-NBS descriptive categories. This edition transcribes 188 directly assigned T headwords from printed pages 148-150, corresponding to PDF pages 184-186. The 234 source assignments are retained separately, and source-specific spellings and same-as pointers remain visible. [\[22\]](#)

Source keys preserve distinctions

M refers to Maerz and Paul, P to Plochere, R to Ridgway, T to Taylor and colleagues, and other keys identify horticultural, textile, biological, federal-paint or postal vocabularies. Tapestry has two separately identified Maerz and Paul plate locations. Tourmaline Pink continues onto the following printed page. These documentary details are part of the meaning of a historical entry. [\[22\]](#)

Category regions are not point values

An assignment such as moderate yellowish brown or very pale purplish red describes a region in a naming system. This page expands the category numbers into readable descriptions but does not assign an invented RGB centroid. Historical entries therefore have no atlas swatches. Cross-reference-only inverted entries and modifier-first forms are outside this headword count. [\[22\]](#)

Older Tigerlily is not automatically Pantone Tigerlily

The historical Tigerlily headword has separate Maerz and Paul and textile-card assignments. Pantone later identified Tigerlily 17-1456 as its 2004 Color of the Year. Owner evidence establishes that later name, code and year; the numerical record here remains attributed to the dealer table. The same distinction applies to True Red 19-1664 (2002), Turquoise 15-5519 (2010) and Tangerine Tango 17-1463 (2012). [\[12, 22, 32, 44\]](#)

RAL and Pantone: preserve system and evidence

A RAL code is part of the identity

The 106 RAL records in this edition have naturally T-initial official English names. Their codes and CLASSIC or DESIGN SYSTEM plus context are retained. The website's CSS previews are treated as digital approximations, not substitutes for physical standards. A legacy Telemagenta value is not authenticated merely by finding the same color name in the RAL inventory. [\[14, 33\]](#)

Dealer agreement is a narrower claim

The Pantone TCX and TPG records come from Columbia Omni Studio's dealer tables. An internally consistent hex/RGB pair is admitted with that qualification. Contradictory rows remain held. TCX and TPG are distinct product contexts; a value from one is not silently used to repair the other. Owner name/code evidence does not automatically authenticate dealer numbers. [\[12, 45\]](#)

Source rights remain separate

RAL states that use of numerical color values requires an agreement. The source register records this boundary; this package is not a licensed RAL digital library and grants no rights in proprietary standards or marks. Factual attribution and original layouts do not by themselves settle reuse terms. [\[14\]](#)

Readable text on teal

Test the actual foreground and background

For opaque CSS teal #008080, the calculated relative luminance is 0.169969. Black text gives 4.399:1 and white text gives 4.773:1. White exceeds the 4.5:1 AA normal-text threshold; black falls just below it. Both exceed 3:1. The blue-green color name alone cannot determine the better foreground. [20, 21]

Calculate before rounding

Each sRGB channel is linearized before the weighted luminance sum: $0.2126R + 0.7152G + 0.0722B$. Contrast is the lighter luminance plus 0.05 divided by the darker luminance plus 0.05. The dataset includes both black and white ratios and suggests the higher-contrast foreground. Use the unrounded number for pass/fail decisions. [20, 21]

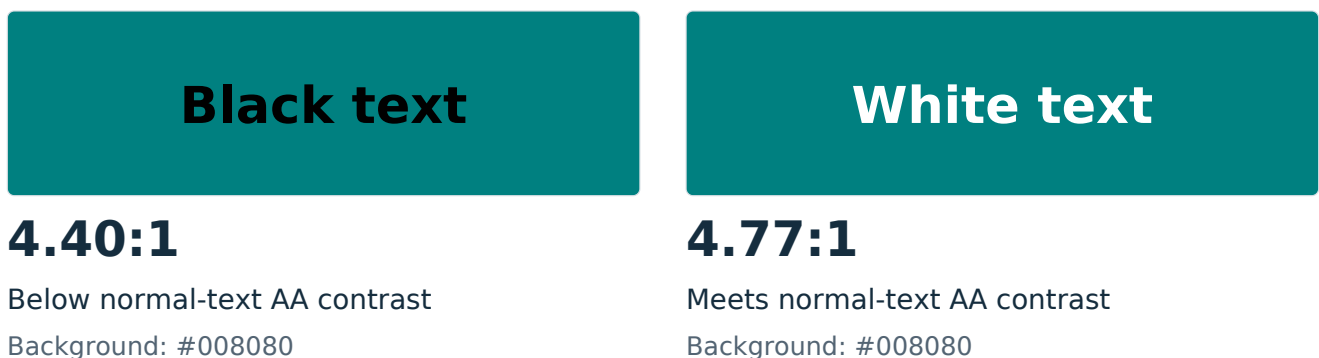

Use the result within its limits

AA contrast is at least 4.5:1 for normal text and 3:1 for large text, with exceptions defined by WCAG. Large text generally means at least 18 points regular or 14 points bold. This calculation assumes opaque solid colors; images, alpha, gradients and interaction states require their actual rendered pairs to be checked. Meeting one contrast criterion does not certify a whole page. [21]

GKBOOK / T-COLORS / FIGURE 4

Text contrast on CSS teal

Opaque sRGB colors • Relative luminance $Y = 0.1700$

AA: at least 4.5:1 for normal text; 3:1 for large text.

Both pass the large-text threshold. Compare unrounded values at any threshold.

Original GKBook graphic • Research checked October 16, 2026

Figure 4. Text contrast on CSS teal The foreground/background pair determines contrast. These WCAG calculations do not certify an entire interface.

What the research resolves and leaves open

Conflicts are visible

92 source rows have contradictory or malformed numerical fields and are held outside the digital atlas. The register preserves published hex and any supplied RGB. Where valid RGB is present, it also gives the exactly calculated hex. Malformed hex values without RGB cannot be repaired arithmetically. The calculated value diagnoses the disagreement; it is not an editorial choice of the intended color. No averaging or screenshot sampling is used to repair the conflict.

Coverage remains bounded

The separate gap register contains 2 discovered endpoints without sufficient admitted numerical evidence. Duplicate URLs and non-product pages are tracked separately. Jotun's regional inventory has 972 unique identities from 989 returned rows because of pagination overlap. Catalog snapshots reused from the same research cycle retain their original dates and hashes; individually fetched T pages have their own evidence. [5-11, 15]

Versions are preserved

58 older/current Sherwin-Williams code-matched preview differences are logged, and 9 older-only contexts remain explicitly historical. A different preview is not proof of a physical reformulation. A failed endpoint is not proof that a product never existed or was discontinued. [3, 34]

The older list has an actionable audit trail

Each of the 84 legacy rows receives a verification outcome, a reviewed family and a proposed handling statement. Exact matches identify their supporting records. Same-name products with different values are candidates, not automatic replacements. Unmatched numbers are kept as unverified legacy claims and excluded from the admitted atlas. The appendix retains the original fields so every change can be reviewed. [33]

Source coverage and family guide

Source groups identify distinct evidence contexts. They are not a count of unrelated manufacturers. TCX/TPG dealer previews, the two Sherwin-Williams table contexts, and the CSS/X11 definitions are deliberately distinguishable. Counts below are after documented alias consolidation.

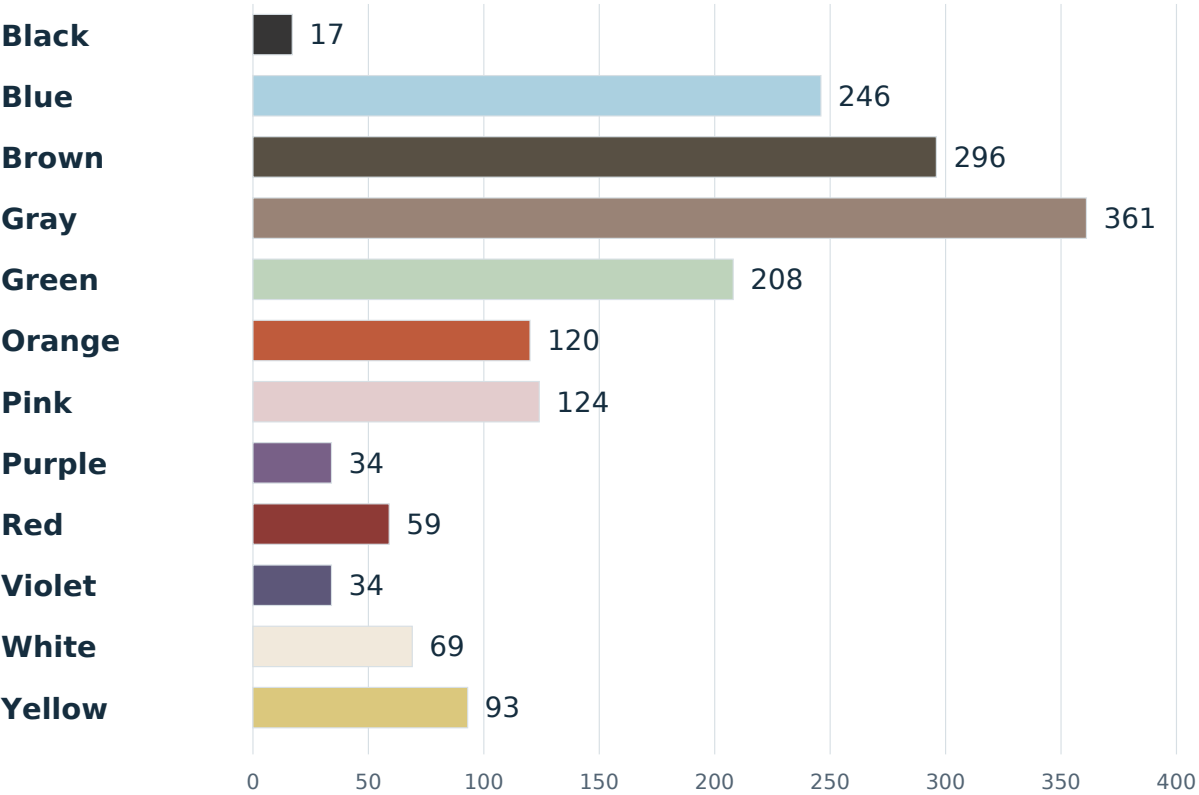

Source group	n	Consulted evidence
Resene	244	244 T records from the stated inventory; exact source and verification scope retained per record. [5]
Dulux Australia	220	220 T records from the stated inventory; exact source and verification scope retained per record. [9]
Behr	207	207 T records from the stated inventory; exact source and verification scope retained per record. [1]
Benjamin Moore	158	158 T records from the stated inventory; exact source and verification scope retained per record. [2]
RAL	106	106 naturally T-initial English names. Official CSS approximations; source systems and rights boundary retained. [14]
Pantone TCX / dealer	102	102 internally consistent dealer approximations; not owner-authenticated numerical standards. [12]
Dunn-Edwards	98	98 T records from the stated inventory; exact source and verification scope retained per record. [4]
PPG	91	91 T records from the stated inventory; exact source and verification scope retained per record. [6]
Nerolac	90	90 T records from the stated inventory; exact source and verification scope retained per record. [11]
Asian Paints	84	84 T records from the stated inventory; exact source and verification scope retained per record. [8]
Sherwin-Williams	78	78 T records from the stated inventory; exact source and verification scope retained per record. [3]
Jotun	45	45 T records from the stated inventory; exact source and verification scope retained per record. [15]
Little Greene	31	31 T records from the stated inventory; exact source and verification scope retained per record. [10]
xkcd survey	30	30 primary survey labels; original spelling and informal status retained. [13]
X.Org X11	21	21 named/numbered identities in rgb 1.1.1; not all are CSS keywords. [18]
Farrow & Ball	13	13 T records from the stated inventory; exact source and verification scope retained per record. [7]
Pantone TPG / dealer	12	12 internally consistent dealer approximations; not owner-authenticated numerical standards. [12]
Sherwin-Williams historical table	9	9 T records from the stated inventory; exact source and verification scope retained per record. [34]
Crayola	6	6 T records from the stated inventory; exact source and verification scope retained per record. [16]
CSS Color	5	Five exact opaque named-color definitions. transparent is explained separately because alpha is zero. [17]
Georgia Tech legacy guide	4	Four named legacy Tech Gold variants; distinguished from the 2026-27 palette. [39]
COLORSTEEL® via Resene	3	3 supplier-hosted previews; current owner standards not independently authenticated. [5]
Tufts University	2	2 T records from the stated inventory; exact source and verification scope retained per record. [36]
Texas Christian University	1	1 T records from the stated inventory; exact source and verification scope retained per record. [38]
University of Tennessee, Knoxville	1	1 T records from the stated inventory; exact source and verification scope retained per record. [37]

Distribution in this edition

GKBOOK / T-COLORS / FIGURE 5

The 12 editorial families

Records in this source-bounded edition • n = 1,661

Each admitted record is counted once. • Counts do not measure popularity or natural abundance.

Figure 5. The 12 editorial families The distribution reflects consulted catalogs, record boundaries, and GKBook’s final visual judgments. It is not a survey of color popularity.

These counts describe the inventories and editorial boundaries used here. They do not measure worldwide frequency, popularity, natural abundance, or scientific importance.

Family definitions

Family	n	Interpretation / atlas figure
Black	17	Very dark near-neutrals and selected tinted blacks. Figure 6.
Blue	246	Blues, blue-grays, cyan blues, and selected blue teals. Figure 7.
Brown	296	Earthy warm colors, tans, beiges, ochres, and selected taupes. Figure 8.
Gray	361	Near-neutrals with subdued warm, cool, green, or violet undertones. Figure 9.
Green	208	Greens, mints, olives, yellow-greens, and selected green teals. Figure 10.
Orange	120	Oranges, peaches, salmon-oranges, and selected warm ambers. Figure 11.
Pink	124	Pinks, blushes, roses, and selected coral or deep rose colors. Figure 12.
Purple	34	Comparatively red-leaning or balanced purples, mauves, and plums. Figure 13.
Red	59	Reds, crimsons, burgundies, and selected brick colors. Figure 14.
Violet	34	Comparatively blue-leaning purples and selected lavenders. Figure 15.
White	69	Very pale near-neutrals and selected tinted whites. Figure 16.
Yellow	93	Yellows, creams, golden colors, and selected yellow chartreuses. Figure 17.

Figures 6–17 span 62 labeled atlas sheets. Every one of the 1,661 digital records appears exactly once. Pale patches have borders; identifiers and numerical values accompany every patch.

Alphabetical digital directory

Family is GKBook’s visual judgment. Each hex/RGB pair is exactly equivalent. The evidence note preserves source categories, archive flags, LRVs, aliases, and limitations. No product code is invented when the consulted page omits it. Proper source spellings and regional names remain intact. Every admitted name begins naturally with T. Source systems and original names remain in the data.

Evidence type	Records

Official CSS approximation; not a physical RAL standard. Usage rights remain separate. German name: Tirolitblaugrün.						

Aliases and source versions

No additional case/spacing alias rows were consolidated in this T extraction. Original spellings remain in the data. Different source contexts remain separate even when values coincide. Duplicate discovery URLs do not create additional identities.

The source-version file preserves 58 code-matched differences between the older Sherwin-Williams table and retained previews. 9 older-table contexts remain qualified as historical. Preview differences do not establish physical reformulation. [\[3, 34\]](#)

Historical T-color names

The 188 directly assigned T headwords below come from the main T block on printed pages 148–150 (PDF pages 184–186) of NBS SP 440. The 234 source assignments remain distinct. Inverted cross-references and modifier-first forms are not counted again. Source-specific spellings, plate codes and same-as pointers are retained. No historical RGB value is invented. [22]

Key	Earlier source interpreted by NBS
B	H. A. Dade, Color Terminology in Biology.
F	Federal Specification TT-C-595, Colors; (for) Ready-Mixed Paints.
H	R. F. Wilson, Horticultural Colour Charts.
M	Maerz and Paul, A Dictionary of Color, first edition.
P	Plochere Color System.
R	Ridgway, Color Standards and Color Nomenclature.
S	William H. Beck, Postage-Stamp Color Names.
T	Taylor, Knoche, and Granville, Descriptive Color Names Dictionary.
TC	Textile Color Card Association: Standard Color Card of America and U.S. Army Color Card.
M(39H11)	Maerz and Paul, plate/sample locator 39H11. Preserved separately under Tapestry.
M(45B4)	Maerz and Paul, plate/sample locator 45B4. Preserved separately under Tapestry.

Each source assignment is expanded separately. Category regions are not unique RGB triplets. Same-as pointers and associations remain explicit. Earlier works are represented through NBS rather than independently reexamined.

Historical directory: Tabu onward

Headword / ID	Keys / numbers	Documented meaning and qualification
Tabu TH001	P: 186	P: grayish blue. NBS printed pp. 148
Taffy TH002	M: 76	M: light yellowish brown. Listed as the same as Walnut [Brown]. NBS printed pp. 148

Headword / ID	Keys / numbers	Documented meaning and qualification
Tyrolite Green TH187	M: 163; R: 163	M: light bluish green. R: light bluish green. The Maerz and Paul entry is listed as the same as Aphrodite. NBS printed pp. 150
Tzarine TH188	M: 157	M: greenish black. NBS printed pp. 150

Unresolved numerical evidence

92 source rows are held. Ninety dealer rows have conflicting hex/RGB fields; two issuer pages have malformed hex values. The last column calculates hex only where valid RGB is provided. A calculated hex diagnoses a conflict; it does not select the intended correction. None receives an admitted digital swatch in this edition.

The unresolved JSON includes each exact source URL and reason. Dealer qualifiers remain necessary even for admitted internally consistent rows. This register concerns contradictory or malformed fields, separate from missing-value evidence. [11, 12]

Supplementary contexts and scope gaps

Name / source	Evidence boundary
transparent / CSS Color	Exact fully transparent black, equivalently #00000000. Alpha is zero; it is not opaque black, so it is outside the six-digit opaque atlas.
Tiffany Blue / Tiffany & Co.	Owner-identified custom color, described as not publicly available. Neither #0ABAB5 nor any other uncited internet value is authenticated here as the brand standard.
Tyrian purple / MFA Boston / CAMEO	Mollusk-derived dye context; no universal ancient hex follows from the name.
Turquoise / GIA	Natural mineral colors vary; CSS turquoise is a separate software definition.
Topaz / GIA	Broad color range, including colorless and several colored forms; one generic hex is not a specimen specification.
Tourmaline / GIA	A family of gem materials with a wide color range; product names and digital labels are separate contexts.
Titanium white / MFA Boston / CAMEO	Titanium-dioxide-based white pigment; finished mixtures and binders affect appearance.
Titanium yellow / MFA Boston / CAMEO	Named inorganic pigment; the source does not authenticate legacy #EEE600 as a universal value.
Terre verte / MFA Boston / CAMEO	Green-earth terminology includes mineral and formulated contexts; no universal hex inferred.
Terracotta / MFA Boston / CAMEO	A material term, distinct from the several survey spellings and paint products.
Trypan Blue / Thermo Fisher Scientific	The product specification describes a dark-purple to dark-brown or black powder. It does not authenticate legacy #1C05B3 as a universal dye color.
Twitter Blue / Twitter, historical guide	Historical brand-name context. The consulted guide does not establish #26A7DE; do not silently replace it with another internet hex.
True Red / Pantone	Owner evidence identifies the 2002 Color of the Year by name and number. Any admitted TCX/TPG digital value remains separately attributed to the dealer table.
Tigerlily / Pantone	Owner evidence identifies the 2004 Color of the Year by name and number. Any admitted TCX/TPG digital value remains separately attributed to the dealer table.
Turquoise / Pantone	Owner evidence identifies the 2010 Color of the Year by name and number. Any admitted TCX/TPG digital value remains separately attributed to the dealer table.
Tangerine Tango / Pantone	Owner evidence identifies the 2012 Color of the Year by name and number. Any admitted TCX/TPG digital value remains separately attributed to the dealer table.

The transparent keyword has an exact alpha definition and is intentionally outside the opaque atlas. The other contexts do not establish a universal or owner-authenticated hex. Two product endpoints remain without admitted numerical evidence: Dulux Techno Green and PPG Totally Topiary MTL127. Eight editorial or collection pages were excluded. Jotun has 972 unique regional identities from 989 returned rows because pagination overlaps. Source dates and reuse are preserved. [\[9, 15, 17, 23–32, 41–45\]](#)

Reconciliation of the earlier T list

All 84 rows from the supplied t-colors.txt are accounted for below. Thirty-seven have exact source-specific matches and three have exact qualified dealer matches. Thirty-one other rows have same-name contexts without numerical agreement, and thirteen lack an exact named numerical match. Every original patch was reviewed; 17 legacy families change. Visual assessment does not authenticate an unsupported number. [33]

Legacy entry / value	Evidence outcome	Resolution / matched IDs
TL001 / Tan 1 / #D2B48C / brown	Exact source-specific match	Retain #D2B48C only in the documented context: tan / CSS Color / CSS keyword; tan / X.Org X11 / rgb 1.1.1. Matching a source does not establish the original writer's unstated intent. Use the exact single-word CSS keyword in CSS. Historical naming evidence: TH007; descriptive categories do not authenticate this hex. Original patch family: Brown (retained). Matched IDs: T0072, T0076
TL002 / Tan 2 / #D99A6C / brown	Name found; legacy numerical claim unverified	Keep #D99A6C unverified. Same-name contexts include CSS Color CSS keyword #D2B48C (T0072); Crayola Explore Colors #FA9D5A (T0073); Little Greene No. 210 #8B5C26 (T0074). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH007; descriptive categories do not authenticate this hex. Original patch family: Orange (revised from Brown).
TL003 / Tan Brown / #AB7E4C / brown	Exact source-specific match	Retain #AB7E4C only in the documented context: tan brown / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Original patch family: Brown (retained). Matched IDs: T0089
TL004 / Tan Green / #A9BE70 / green	Exact source-specific match	Retain #A9BE70 only in the documented context: tan green / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Original patch family: Green (retained). Matched IDs: T0136
TL005 / Tangelo / #F94D00 / orange	Name found; legacy numerical claim unverified	Keep #F94D00 unverified. Same-name contexts include Benjamin Moore 2017-30 #FFA134 (T0097); Dulux Australia S05G4 #E5A1A0 (T0098); Pantone TCX / dealer 15-1335 TCX #FE7E03 (T0099). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Original patch family: Orange (retained).
TL006 / Tangerine 1 / #F28500 / orange	Name found; legacy numerical claim unverified	Keep #F28500 unverified. Same-name contexts include Pantone TCX / dealer 15-1247 TCX #F88F58 (T0105); Resene O61-153-051 #CD5D34 (T0106); Sherwin-Williams SW 6640 #F2AC78 (T0107). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH011; descriptive categories do not authenticate this hex. Original patch family: Orange (retained).
TL007 / Tangerine 2 / #FF9408 / orange	Exact source-specific match	Retain #FF9408 only in the documented context: tangerine / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH011; descriptive categories do not authenticate this hex. Original patch family: Orange (retained). Matched IDs: T0108

Legacy entry / value	Evidence outcome	Resolution / matched IDs
TL008 / Tangerine Tango / #DD4124 / orange	Exact dealer match; qualified approximation	Retain #DD4124 only in the documented context: Tangerine Tango / Pantone TCX / dealer / 17-1463 TCX. Matching a source does not establish the original writer's unstated intent. The value is a dealer approximation, not an authenticated licensed Pantone specification. Pantone identifies Tangerine Tango 17-1463 as its 2012 Color of the Year. Owner name/code/year evidence does not itself authenticate the numerical dealer preview. Original patch family: Orange (retained). Matched IDs: T0119
TL009 / Tangerine Yellow / #FFCC00 / yellow	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #FFCC00 as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. Original patch family: Yellow (retained).
TL010 / Tart Orange / #FB4D46 / orange	Name found; legacy numerical claim unverified	Keep #FB4D46 unverified. Same-name contexts include Behr HDC-MD-27 #EA7739 (T0211). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Original patch family: Red (revised from Orange).
TL011 / Taupe 1 / #483C32 / brown	Name found; legacy numerical claim unverified	Keep #483C32 unverified. Same-name contexts include Benjamin Moore 2110-10 #5A4430 (T0232); xkcd survey #B9A281 (T0233). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH024; descriptive categories do not authenticate this hex. Original patch family: Brown (retained).
TL012 / Taupe 2 / #B9A281 / brown	Exact source-specific match	Retain #B9A281 only in the documented context: taupe / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH024; descriptive categories do not authenticate this hex. Original patch family: Brown (retained). Matched IDs: T0233
TL013 / Taupe Gray / #8B8589 / gray	Name found; legacy numerical claim unverified	Keep #8B8589 unverified. Same-name contexts include Nerolac 2913 #D3CBC0 (T0235); Pantone TCX / dealer 17-0808 TCX #8E7C71 (T0236); Nerolac 2913 #D3CBC0 (T0237). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH026; descriptive categories do not authenticate this hex. Original patch family: Gray (retained).
TL014 / Tea / #65AB7C / green	Exact source-specific match	Retain #65AB7C only in the documented context: tea / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH032; descriptive categories do not authenticate this hex. Original patch family: Green (retained). Matched IDs: T0286
TL015 / Tea Green 1 / #BDF8A3 / green	Exact source-specific match	Retain #BDF8A3 only in the documented context: tea green / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH033; descriptive categories do not authenticate this hex. Original patch family: Green (retained). Matched IDs: T0303

Legacy entry / value	Evidence outcome	Resolution / matched IDs
TL016 / Tea Green 2 / #D0F0C0 / green	Name found; legacy numerical claim unverified	Keep #D0F0C0 unverified. Same-name contexts include RAL RAL 150 70 10 #9EADA1 (T0302); xkcd survey #BDF8A3 (T0303). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH033; descriptive categories do not authenticate this hex. Original patch family: Green (retained).
TL017 / Tea Rose 1 / #F4C2C2 / pink	Name found; legacy numerical claim unverified	Keep #F4C2C2 unverified. Same-name contexts include Dulux Australia S01E5 #A4707A (T0381); Pantone TCX / dealer 16-1620 TCX #DC7178 (T0382). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH042, TH043; descriptive categories do not authenticate this hex. Original patch family: Pink (retained).
TL018 / Tea Rose 2 / #F88379 / pink	Name found; legacy numerical claim unverified	Keep #F88379 unverified. Same-name contexts include Dulux Australia S01E5 #A4707A (T0381); Pantone TCX / dealer 16-1620 TCX #DC7178 (T0382). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH042, TH043; descriptive categories do not authenticate this hex. Original patch family: Pink (retained).
TL019 / Teal / #008080 / blue	Exact source-specific match	Retain #008080 only in the documented context: teal / CSS Color / CSS keyword; teal / X.Org X11 / rgb 1.1.1. Matching a source does not establish the original writer's unstated intent. Use the exact single-word CSS keyword in CSS. Historical naming evidence: TH037; descriptive categories do not authenticate this hex. Original patch family: Blue (retained). Matched IDs: T0312, T0316
TL020 / Teal Blue 1 / #01889F / blue	Exact source-specific match	Retain #01889F only in the documented context: teal blue / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH038; descriptive categories do not authenticate this hex. Original patch family: Blue (retained). Matched IDs: T0327
TL021 / Teal Blue 2 / #367588 / blue	Name found; legacy numerical claim unverified	Keep #367588 unverified. Same-name contexts include Pantone TCX / dealer 17-5024 TCX #007F7C (T0324); RAL RAL 190 80 20 #A2CDCB (T0325); Resene B39-040-223 #254855 (T0326). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH038; descriptive categories do not authenticate this hex. Original patch family: Blue (retained).
TL022 / Teal Deer / #99E6B3 / green	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #99E6B3 as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. Original patch family: Green (retained).
TL023 / Teal Green 1 / #00827F / green	Name found; legacy numerical claim unverified	Keep #00827F unverified. Same-name contexts include Pantone TCX / dealer 19-4922 TCX #006361 (T0339); Pantone TPG / dealer 19-4922 TPG #276A6C (T0340); xkcd survey #25A36F (T0341). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH041; descriptive categories do not authenticate this hex. Original patch family: Blue (revised from Green).

Legacy entry / value	Evidence outcome	Resolution / matched IDs
TL024 / Teal Green 2 / #25A36F / green	Exact source-specific match	Retain #25A36F only in the documented context: teal green / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH041; descriptive categories do not authenticate this hex. Original patch family: Green (retained). Matched IDs: T0341
TL025 / Tealish / #24BCA8 / blue	Exact source-specific match	Retain #24BCA8 only in the documented context: tealish / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Original patch family: Green (revised from Blue). Matched IDs: T0346
TL026 / Tealish Green / #0CDC73 / green	Exact source-specific match	Retain #0CDC73 only in the documented context: tealish green / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Original patch family: Green (retained). Matched IDs: T0347
TL027 / Technobotanica / #00FFBF / green	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #00FFBF as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. Do not infer a standardized definition from this coined name. Original patch family: Green (retained).
TL028 / Telemagenta / #CF3476 / pink	Name found; legacy numerical claim unverified	Keep #CF3476 unverified. Same-name contexts include RAL 4010 #AC3B71 (T0417). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. The consulted RAL record identifies CLASSIC 4010 with its own qualified web approximation. The legacy conversion is not automatically authenticated by name agreement. Original patch family: Pink (retained).
TL029 / Temptress / #3C2126 / red	Exact source-specific match	Retain #3C2126 only in the documented context: Temptress / Resene / BR29-024-014. Matching a source does not establish the original writer's unstated intent. Original patch family: Red (retained). Matched IDs: T0445
TL030 / Tenne / #CD5700 / brown	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #CD5700 as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. Original patch family: Orange (revised from Brown).
TL031 / Terra Cotta 1 / #C9643B / brown	Exact source-specific match	Retain #C9643B only in the documented context: terra cotta / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH053; descriptive categories do not authenticate this hex. The survey spellings terra cotta, terracotta and terracota are distinct dataset labels; none is a universal fired-clay specification. Original patch family: Orange (revised from Brown). Matched IDs: T0499
TL032 / Terra Cotta 2 / #CA6641 / brown	Exact source-specific match	Retain #CA6641 only in the documented context: terracotta / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH053; descriptive categories do not authenticate this hex. The survey spellings terra cotta, terracotta and terracota are distinct dataset labels; none is a universal fired-clay specification. Original patch family: Orange (revised from Brown). Matched IDs: T0500

Legacy entry / value	Evidence outcome	Resolution / matched IDs
TL033 / Terra Cotta 3 / #E2725B / brown	Name found; legacy numerical claim unverified	Keep #E2725B unverified. Same-name contexts include COLORSTEEL® via Resene #8E5037 (T0495); Dulux Australia #9A6E59 (T0496); Nerolac 02174 #AC6667 (T0497). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH053; descriptive categories do not authenticate this hex. The survey spellings terra cotta, terracotta and terracota are distinct dataset labels; none is a universal fired-clay specification. Original patch family: Orange (revised from Brown).
TL034 / Terracota / #CB6843 / orange	Exact source-specific match	Retain #CB6843 only in the documented context: terracota / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. The survey spellings terra cotta, terracotta and terracota are distinct dataset labels; none is a universal fired-clay specification. Original patch family: Orange (retained). Matched IDs: T0494
TL035 / Thistle 1 / #D8BFD8 / purple	Exact source-specific match	Retain #D8BFD8 only in the documented context: thistle / CSS Color / CSS keyword; thistle / X.Org X11 / rgb 1.1.1. Matching a source does not establish the original writer's unstated intent. Use the exact single-word CSS keyword in CSS. Historical naming evidence: TH074; descriptive categories do not authenticate this hex. Original patch family: Purple (retained). Matched IDs: T0598, T0602
TL036 / Thistle 2 / #EBB0D7 / pink	Name found; legacy numerical claim unverified	Keep #EBB0D7 unverified. Same-name contexts include Behr QE-45 #879281 (T0597); CSS Color CSS keyword #D8BFD8 (T0598); Pantone TCX / dealer 14-3907 TCX #B9B3C5 (T0599). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH074; descriptive categories do not authenticate this hex. Original patch family: Pink (retained).
TL037 / Tickle Me Pink 1 / #FC80A5 / pink	Exact source-specific match	Retain #FC80A5 only in the documented context: Tickle Me Pink / Crayola / Explore Colors. Matching a source does not establish the original writer's unstated intent. Original patch family: Pink (retained). Matched IDs: T0700
TL038 / Tickle Me Pink 2 / #FC89AC / pink	Name found; legacy numerical claim unverified	Keep #FC89AC unverified. Same-name contexts include Crayola Explore Colors #FC80A5 (T0700). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Original patch family: Pink (retained).
TL039 / Tiffany Blue 1 / #0ABAB5 / blue	Name found; legacy numerical claim unverified	Keep #0ABAB5 unverified. Same-name contexts include xkcd survey #7BF2DA (T0729). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. The owner describes custom Pantone 1837 Blue as not publicly available. Neither this legacy hex nor the popular #81D8D0 is authenticated by that statement. Do not substitute another internet approximation. Original patch family: Blue (retained).
TL040 / Tiffany Blue 2 / #7BF2DA / blue	Exact source-specific match	Retain #7BF2DA only in the documented context: tiffany blue / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. This is the xkcd informal label, not an authenticated Tiffany brand specification. Tiffany describes custom Pantone 1837 Blue as not publicly available. Original patch family: Green (revised from Blue). Matched IDs: T0729

Legacy entry / value	Evidence outcome	Resolution / matched IDs
TL041 / Tiger's Eye 1 / #B56917 / brown	Name found; legacy numerical claim unverified	Keep #B56917 unverified. Same-name contexts include Pantone TCX / dealer 17-1038 TCX #977C61 (T0735). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Original patch family: Brown (retained).
TL042 / Tiger's Eye 2 / #E08D3C / orange	Name found; legacy numerical claim unverified	Keep #E08D3C unverified. Same-name contexts include Pantone TCX / dealer 17-1038 TCX #977C61 (T0735). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Original patch family: Orange (retained).
TL043 / Tigerlily / #E2583E / orange	Exact dealer match; qualified approximation	Retain #E2583E only in the documented context: Tigerlily / Pantone TCX / dealer / 17-1456 TCX. Matching a source does not establish the original writer's unstated intent. The value is a dealer approximation, not an authenticated licensed Pantone specification. Historical naming evidence: TH084; descriptive categories do not authenticate this hex. Pantone identifies Tigerlily 17-1456 as its 2004 Color of the Year. An exact dealer match remains a dealer approximation; the earlier NBS name has separate documentary origins. Original patch family: Orange (retained). Matched IDs: T0732
TL044 / Timberwolf / #DBD7D2 / white	Name found; legacy numerical claim unverified	Keep #DBD7D2 unverified. Same-name contexts include Crayola Explore Colors #D9D6CF (T0761); Dunn-Edwards DEBN69 #8C8474 (T0762); Pantone TCX / dealer 17-1310 TCX #8D8070 (T0763). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. The consulted Crayola preview is #D9D6CF. Do not present legacy #DBD7D2 as the current Crayola specification; retain it as an unverified older claim. Original patch family: Gray (revised from White).
TL045 / Titanium / #878681 / gray	Name found; legacy numerical claim unverified	Keep #878681 unverified. Same-name contexts include Behr PPU24-16 #C7C6C0 (T0857); Benjamin Moore OC-49 #DADBCF (T0858); Pantone TCX / dealer 17-4014 TCX #807D7F (T0859). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Original patch family: Gray (retained).
TL046 / Titanium Yellow / #EEE600 / yellow	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #EEE600 as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. CAMEO identifies Pigment Yellow 53, a nickel-antimony-titanium oxide pigment, but supplies no universal RGB specification. Material identity does not authenticate this number. Original patch family: Yellow (retained).
TL047 / Tomato / #FF6347 / red	Exact source-specific match	Retain #FF6347 only in the documented context: tomato / CSS Color / CSS keyword; tomato / X.Org X11 / rgb 1.1.1. Matching a source does not establish the original writer's unstated intent. Use the exact single-word CSS keyword in CSS. Original patch family: Red (retained). Matched IDs: T0931, T0935
TL048 / Tomato Red / #EC2D01 / red	Exact source-specific match	Retain #EC2D01 only in the documented context: tomato red / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH106, TH107; descriptive categories do not authenticate this hex. Original patch family: Red (retained). Matched IDs: T0948

Legacy entry / value	Evidence outcome	Resolution / matched IDs
TL049 / Tomato Sauce / #B21807 / brown	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #B21807 as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. Original patch family: Red (revised from Brown).
TL050 / Toolbox / #746CC0 / blue	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #746CC0 as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. Original patch family: Violet (revised from Blue).
TL051 / Topaz 1 / #13BBAF / blue	Exact source-specific match	Retain #13BBAF only in the documented context: topaz / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH109; descriptive categories do not authenticate this hex. The xkcd survey label is distinct from the variable gem material. Original patch family: Blue (retained). Matched IDs: T0972
TL052 / Topaz 2 / #FFC87C / orange	Name found; legacy numerical claim unverified	Keep #FFC87C unverified. Same-name contexts include Benjamin Moore 070 #C06A46 (T0969); Pantone TCX / dealer 16-1150 TCX #D08344 (T0970); Resene V61-011-299 #817C87 (T0971). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH109; descriptive categories do not authenticate this hex. Topaz spans many gem colors; an amber association cannot authenticate this exact hex. Original patch family: Orange (retained).
TL053 / Toupe / #C7AC7D / yellow	Exact source-specific match	Retain #C7AC7D only in the documented context: toupe / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Preserve the source spelling toupe; do not silently rename it taupe. Original patch family: Brown (revised from Yellow). Matched IDs: T1053
TL054 / Tourmaline / #86A1A9 / blue	Exact dealer match; qualified approximation	Retain #86A1A9 only in the documented context: Tourmaline / Pantone TCX / dealer / 16-4411 TCX. Matching a source does not establish the original writer's unstated intent. The value is a dealer approximation, not an authenticated licensed Pantone specification. Historical naming evidence: TH118; descriptive categories do not authenticate this hex. Tourmaline has a wide material color range. Matching a specific Resene preview does not make this a universal mineral standard. Original patch family: Gray (revised from Blue). Matched IDs: T1054
TL055 / Toxic Green / #61DE2A / green	Exact source-specific match	Retain #61DE2A only in the documented context: toxic green / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Original patch family: Green (retained). Matched IDs: T1070
TL056 / Tree Green / #2A7E19 / green	Exact source-specific match	Retain #2A7E19 only in the documented context: tree green / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Original patch family: Green (retained). Matched IDs: T1189
TL057 / Tropical Rainforest / #00755E / blue	Exact source-specific match	Retain #00755E only in the documented context: Tropical Rain Forest / Crayola / Explore Colors. Matching a source does not establish the original writer's unstated intent. Original patch family: Green (revised from Blue). Matched IDs: T1339

Legacy entry / value	Evidence outcome	Resolution / matched IDs
TL058 / Tropical Violet / #CDA4DE / purple	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #CDA4DE as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. Original patch family: Purple (retained).
TL059 / True Blue 1 / #0073CF / blue	Name found; legacy numerical claim unverified	Keep #0073CF unverified. Same-name contexts include Benjamin Moore 2066-50 #6CBAEA (T1379); Dulux Australia S40H9 #194983 (T1380); Jotun 4947 #426884 (T1381). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Original patch family: Blue (retained).
TL060 / True Blue 2 / #010FCC / blue	Exact source-specific match	Retain #010FCC only in the documented context: true blue / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Original patch family: Blue (retained). Matched IDs: T1384
TL061 / True Blue 3 / #2D68C4 / blue	Name found; legacy numerical claim unverified	Keep #2D68C4 unverified. Same-name contexts include Benjamin Moore 2066-50 #6CBAEA (T1379); Dulux Australia S40H9 #194983 (T1380); Jotun 4947 #426884 (T1381). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Original patch family: Blue (retained).
TL062 / True Green / #089404 / green	Exact source-specific match	Retain #089404 only in the documented context: true green / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Original patch family: Green (retained). Matched IDs: T1387
TL063 / True Red / #C74375 / red	Name found; legacy numerical claim unverified	Keep #C74375 unverified. Same-name contexts include Dulux Australia #D52027 (T1397); Pantone TCX / dealer 19-1664 TCX #BF1932 (T1398). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Pantone identifies True Red 19-1664 as its 2002 Color of the Year. The legacy patch looks pink, but visual judgment alone cannot select an intended product or repair this hex. Original patch family: Pink (revised from Red).
TL064 / Trypan Blue / #1C05B3 / blue	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #1C05B3 as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. The manufacturer describes the powder as dark purple to dark brown or black; no numerical screen specification is supplied. Preserve physical state and observation context. Original patch family: Blue (retained).
TL065 / Tufts Blue / #3E8EDE / blue	Exact source-specific match	Retain #3E8EDE only in the documented context: Tufts Blue / Tufts University / PMS 279 / digital. Matching a source does not establish the original writer's unstated intent. The current university guide explicitly confirms #3E8EDE and RGB (62,142,222). Reject the earlier audit recommendation to replace it with #3172AE as current guidance. Original patch family: Blue (retained). Matched IDs: T1440
TL066 / Tulip / #FF878D / pink	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #FF878D as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. Original patch family: Pink (retained).

Legacy entry / value	Evidence outcome	Resolution / matched IDs
TL067 / Tumbleweed 1 / #DEA681 / orange	Exact source-specific match	Retain #DEA681 only in the documented context: Tumbleweed / Crayola / Explore Colors. Matching a source does not establish the original writer's unstated intent. Historical naming evidence: TH144; descriptive categories do not authenticate this hex. Original patch family: Orange (retained). Matched IDs: T1461
TL068 / Tumbleweed 2 / #DEAA88 / orange	Name found; legacy numerical claim unverified	Keep #DEAA88 unverified. Same-name contexts include Crayola Explore Colors #DEA681 (T1461); Resene Y40-031-082 #4B412A (T1462). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH144; descriptive categories do not authenticate this hex. Original patch family: Orange (retained).
TL069 / Turkish Rose / #B57281 / pink	Name found; legacy numerical claim unverified	Keep #B57281 unverified. Same-name contexts include Resene R62-042-014 #A56E75 (T1491). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Original patch family: Pink (retained).
TL070 / Turquoise / #40E0D0 / blue	Exact source-specific match	Retain #40E0D0 only in the documented context: turquoise / CSS Color / CSS keyword; turquoise / X.Org X11 / rgb 1.1.1. Matching a source does not establish the original writer's unstated intent. Use the exact single-word CSS keyword in CSS. Historical naming evidence: TH157; descriptive categories do not authenticate this hex. Original patch family: Blue (retained). Matched IDs: T1512, T1515
TL071 / Turquoise Blue / #6CDAE7 / blue	Exact source-specific match	Retain #6CDAE7 only in the documented context: Turquoise Blue / Crayola / Explore Colors. Matching a source does not establish the original writer's unstated intent. Historical naming evidence: TH158, TH159; descriptive categories do not authenticate this hex. Original patch family: Blue (retained). Matched IDs: T1521
TL072 / Turquoise Blue 1 / #00FFEF / blue	Name found; legacy numerical claim unverified	Keep #00FFEF unverified. Same-name contexts include Crayola Explore Colors #6CDAE7 (T1521); Little Greene No. 93 #6EB399 (T1522); RAL RAL 5018 #47848D (T1523). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH158, TH159; descriptive categories do not authenticate this hex. Original patch family: Blue (retained).
TL073 / Turquoise Blue 2 / #06B1C4 / blue	Exact source-specific match	Retain #06B1C4 only in the documented context: turquoise blue / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH158, TH159; descriptive categories do not authenticate this hex. Original patch family: Blue (retained). Matched IDs: T1524
TL074 / Turquoise Green 1 / #04F489 / green	Exact source-specific match	Retain #04F489 only in the documented context: turquoise green / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH160; descriptive categories do not authenticate this hex. Original patch family: Green (retained). Matched IDs: T1526

Legacy entry / value	Evidence outcome	Resolution / matched IDs
TL075 / Turquoise Green 2 / #A0D6B4 / green	Name found; legacy numerical claim unverified	Keep #A0D6B4 unverified. Same-name contexts include RAL RAL 6016 #256753 (T1525); xkcd survey #04F489 (T1526). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH160; descriptive categories do not authenticate this hex. Original patch family: Green (retained).
TL076 / Turquoise Surf / #00C5CD / blue	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #00C5CD as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. Original patch family: Blue (retained).
TL077 / Turtle Green / #75B84F / green	Exact source-specific match	Retain #75B84F only in the documented context: turtle green / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH163; descriptive categories do not authenticate this hex. Original patch family: Green (retained). Matched IDs: T1547
TL078 / Tuscan Red / #7C4848 / red	Name found; legacy numerical claim unverified	Keep #7C4848 unverified. Same-name contexts include Little Greene No. 140 #874535 (T1557). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH167; descriptive categories do not authenticate this hex. Original patch family: Red (retained).
TL079 / Tuscany / #C09999 / pink	Name found; legacy numerical claim unverified	Keep #C09999 unverified. Same-name contexts include Benjamin Moore 1208 #BC8B6E (T1563); Jotun 2225 #D2A993 (T1564); Little Greene No. 12 #D8B197 (T1565). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH170; descriptive categories do not authenticate this hex. Original patch family: Pink (retained).
TL080 / Twilight / #4E518B / blue	Exact source-specific match	Retain #4E518B only in the documented context: twilight / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Original patch family: Violet (revised from Blue). Matched IDs: T1597
TL081 / Twilight Blue / #0A437A / blue	Exact source-specific match	Retain #0A437A only in the documented context: twilight blue / xkcd survey. Matching a source does not establish the original writer's unstated intent. Retain the survey-label qualifier and original source spelling. Historical naming evidence: TH172, TH173; descriptive categories do not authenticate this hex. Original patch family: Blue (retained). Matched IDs: T1601
TL082 / Twilight Lavender / #8A496B / purple	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #8A496B as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. Original patch family: Purple (retained).
TL083 / Twitter Blue / #26A7DE / blue	Legacy numerical claim unverified	No exact named numerical match was established in the consulted sources. Keep #26A7DE as an unverified legacy claim; do not infer a source or standard. Exclude it from the admitted atlas. The consulted October 2020 Twitter guide does not establish this legacy hex. The August 2023 X guide uses a black-and-white primary palette. Do not infer a historical numerical specification by sampling a logo. Original patch family: Blue (retained).

Legacy entry / value	Evidence outcome	Resolution / matched IDs
TL084 / Tyrian Purple / #66023C / purple	Name found; legacy numerical claim unverified	Keep #66023C unverified. Same-name contexts include Dulux Australia S43E5 #837AA3 (T1659). A different maker, version or value is not an automatic correction. Exclude this unsupported legacy number from the admitted atlas. Historical naming evidence: TH181; descriptive categories do not authenticate this hex. Historical mollusk-dye evidence does not define a universal screen hex. The NBS horticultural-chart name is a separate context. Original patch family: Purple (retained).

Glossary

Term	Meaning
Source-specific record	A name and value tied to an issuer, code, system, market, version or stated dataset.
sRGB	The color encoding used to interpret this edition's eight-bit previews and contrast calculations.
Hex / RGB	Equivalent hexadecimal and decimal notations for encoded red, green and blue channels.
Alpha	The opacity component. Zero is fully transparent; one is fully opaque.
Shade family	A GKBook navigation grouping based on the displayed patch; it does not rename the source entry.
Source category	The maker's own classification, retained separately from the reviewed family.
LRV	A source-supplied light reflectance value, kept distinct from luminance calculated from a web preview.
Relative luminance	A weighted measure calculated from linearized sRGB channels for contrast evaluation.
Contrast ratio	A comparison of a particular foreground and background pair, not a property of a name alone.
TCX / TPG	Distinct Pantone cotton and paper FHI product contexts; the numbers here are attributed to dealer tables.
ISCC-NBS category	A descriptive color region with a numbered label, not a unique RGB point.
Held record	A source row with contradictory numerical fields, preserved for resolution and omitted from the atlas.
Coverage gap	A discovered endpoint for which sufficient numerical evidence was not established.
Legacy claim	A value from the earlier supplied list, whose original fields remain visible even when unverified.

Frequently asked questions

How many colors start with T?

This edition documents 1,661 source-specific digital records and 188 historical headwords within its consulted sources. It is not a universal total. Different records can share a name or value, and historical descriptive categories are counted separately from RGB patches. The coverage table explains the boundaries of each source group.

Which T names are CSS colors?

The five opaque named keywords are tan, teal, thistle, tomato and turquoise. CSS also defines transparent as fully transparent black with alpha zero. Numbered X11 names and general terms such as taupe or tangerine are not additional CSS named-color keywords. Use the source-specific values and exact keyword spellings shown here.

Are teal and turquoise the same color?

They are different CSS definitions: teal is #008080 and turquoise is #40E0D0. Outside CSS, both words occur in broader vocabularies and in named products with different previews. State the source and code before comparing them. A general resemblance between two blue-green patches does not make their specifications interchangeable.

What is the official Tiffany Blue hex?

The owner evidence consulted here does not publish an authoritative public hex for Tiffany's custom Pantone 1837 Blue. It describes the color as not publicly available. The xkcd label tiffany blue has its own documented #7BF2DA value, but that survey entry must not be presented as the Tiffany brand specification.

Should Tufts Blue be changed to #3172AE?

Not on the basis of the current guide checked for this edition. Tufts explicitly lists Tufts Blue as #3E8EDE, RGB (62, 142, 222). The earlier supplied audit's proposed replacement is therefore not adopted as current guidance. Brand identity and text accessibility are separate questions; test the intended foreground/background pair.

Is terracotta always a brown or orange hex?

Terracotta can refer to fired clay, a manufacturer color or an informal digital label. The material has no single universal screen triplet. In the directory, each documented numerical patch receives a reviewed family while its source name stays unchanged. Different survey spellings are preserved instead of being merged into a fabricated standard.

Is #66023C the exact ancient Tyrian purple?

No such exact historical specification was established in the consulted evidence. Tyrian purple is a historical dye context, and a later horticultural chart also used that name. Neither fact authenticates the legacy hex. The old value remains identifiable as an unverified numerical claim, with its visual family assessed separately.

Can every color use white text?

No. Readability depends on the actual foreground and background. On CSS teal, white clears the AA normal-text contrast threshold while black narrowly misses it. Other patches can favor black. The data provide both ratios for each opaque sRGB preview; transparent or image backgrounds need their real rendered combinations checked.

Why are some colors excluded from the atlas?

The atlas includes admitted opaque digital records only. Contradictory source fields, missing specifications and unverified older values remain in separate evidence registers. Historical name categories and material identities do not receive invented RGB values. The CSS transparent keyword is exact but non-opaque, so its alpha definition is explained separately.

Does matching a hex prove that two paints are identical?

No. A shared screen triplet is evidence of matching digital previews, not matching physical materials. Formulation, surface, finish and lighting can still differ. Likewise, a changed web preview does not by itself establish reformulation. Keep the maker, product code, source version and evidence note with every value used in a publication.
