Colors That Start With V

Names, source-specific digital values, historical meanings, and independently reviewed shade families

766 digital records	156 historical entries	12 shade families
Exact source previews	Documented category meanings	Independent visual review

An illustrated reference for high school and college readers, with a source-linked alphabetical directory, historical naming evidence, worked examples, and a complete companion atlas.

Research checked: October 16, 2026
Language: US English
Scope: International, source-bounded coverage.

Overview

What are colors that start with V?

V color names include violet, vermilion, viridian, verdigris, vanilla, Venetian red, Van Dyke brown, Very Peri and Viva Magenta. They span pigments, web standards, commercial catalogs, historical dictionaries and informal naming datasets. This edition documents 766 source-specific digital records and 156 historical headwords, with a separate resolution for every entry in the earlier 90-color list.

A name needs a source

Violet is a precise CSS keyword, an artists’ color term and a name used independently by paint and crayon makers. Those meanings do not share one universal numerical value. A useful record therefore keeps its name, source, code, system, market and digital evidence together. This distinction also applies to names such as Vanilla, Vista Blue and Viridian Green. [1-18]

How to use this page

Search the digital directory by name, maker or code; use the family atlas to compare exact patches. Historical entries explain documented terminology without invented RGB values. The evidence-conflict register preserves contradictory fields and any separately verified owner resolution. The legacy appendix distinguishes corrections, exact source matches and claims whose numerical origin remains unverified. [22, 33]

At a glance

Measure	This edition
Digital records	766; each source context counted once
Distinct displayed names / RGB triplets	547 names / 722 triplets
Evidence groups	21 source/system/version groups
Historical naming entries	156; no digital values invented
Held numerical records	36; excluded from the verified atlas
Alias rows combined	1; alternative names remain searchable in the data

What counts as a V-color record?

Source-specific identity

A record is an exact displayed name linked to a particular source and numerical specification. Two systems may legitimately use the same word for different colors. Different publishers repeating one original source are not independent corroboration. The evidence register distinguishes owner material, third-party dealer tables, survey labels and dated records.

Natural initial letters

Only names naturally beginning with V enter the digital directory. An institution's name is not prefixed to an otherwise unrelated color to inflate the list. Original punctuation, accents, suffixes and product codes remain intact. Search normalization helps find a name; it does not prove that two records are identical.

What is kept outside the numerical atlas

A familiar pigment name, a historical dictionary category, a brand association or an internally inconsistent table is insufficient to establish an exact digital triplet. These contexts still belong in the encyclopedia, with their limits visible. Counts describe the consulted inventories and inclusion rules, not every V name ever coined.

Violet: one name, several digital colors

Three documented examples

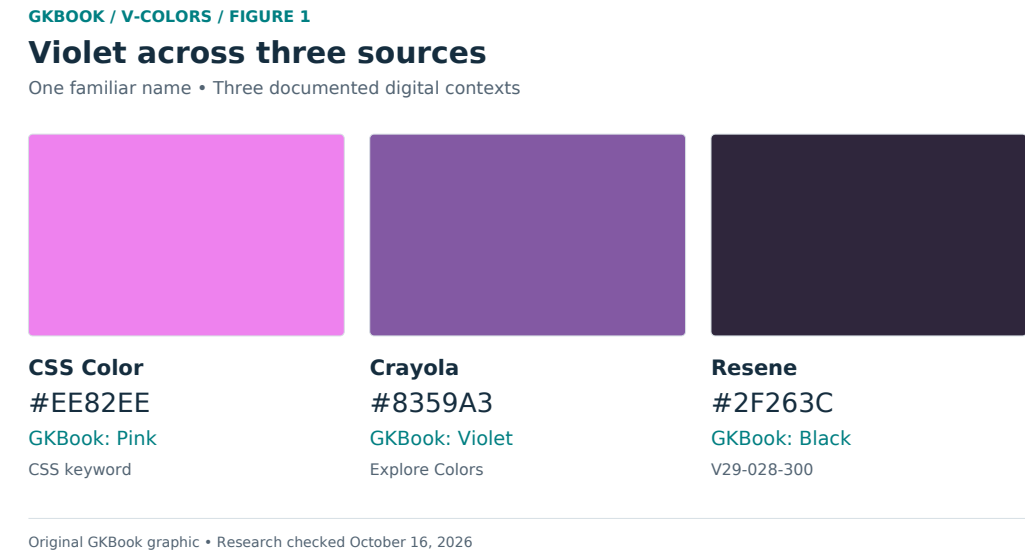

CSS violet is #EE82EE, Crayola Violet is #8359A3 in its current consulted web inventory, and Resene Violet is #2F263C in its named preview. These are three source-specific records. Treating one as the correction for all the others would erase the identity of the source. [5, 16, 17, 42]

Numbered variants need a provenance

The earlier list’s Violet 1, Violet 2 and similar suffixes are editorial enumeration unless a cited system actually uses them. X.Org does publish numbered VioletRed labels, but that does not authenticate unrelated numbered Violet entries. Roman numerals in a legacy heading also need an identified catalog or version. [18, 33]

Names and navigation can differ

The CSS keyword remains violet even when GKBook’s visual navigation groups its bright pink-purple patch under Pink. The source name is never rewritten to make it agree with an editorial family. A visitor should be able to see both the source identity and the reviewed visual category.

Spectral violet and an RGB violet are different specifications

Wavelength describes light

Violet lies toward the short-wavelength end of visible light. A wavelength is a physical property of electromagnetic radiation, whereas an RGB triplet gives encoded channel values in a color space. A label such as electric violet does not turn a screen color into single-wavelength light. [\[19, 36\]](#)

A hex value does not supply a spectrum

A display forms its output from its own primary emissions. Neither `#7F00FF` nor `#8F00FF`, merely by its name or saturation, documents a spectral wavelength. This article therefore replaces the earlier phrase “bright spectral violets” with a description of RGB or catalog violet previews. [\[17, 19, 33, 36\]](#)

Violet and purple in this taxonomy

GKBook uses Violet for comparatively blue-leaning purples and Purple for comparatively red-leaning or balanced purples. This is a navigation convention for the displayed patches. It is not a universal language boundary, a spectroscopic measurement, or a replacement for an issuer’s name.

Vermilion and Venetian red

Pigment identity

Traditional vermillion is red mercury sulfide; natural cinnabar is the corresponding mineral context. Venetian red belongs to iron-oxide earth and manufactured pigment traditions. These material identities do not prescribe a universal hex. Paints marketed under either name may use different formulations. [27, 30, 32]

Keep the source spelling

Vermilion is the usual English pigment spelling, but vermillion is the exact lowercase label in the xkcd survey, with #F4320C. It is a valid documented survey record and should not be discarded merely because a pigment reference uses another spelling. The survey value is not a chemical standard. [13, 27]

The Plochere claim

NBS records a Plochere assignment for Vermilion as category 35, strong reddish orange. That historical description does not authenticate the legacy #D9381E. Retain the historical evidence and withhold the unsupported numerical attribution unless an exact originating specification is supplied. [22, 33]

Verdigris, viridian and related greens

Different materials

Verdigris is associated with copper-acetate pigment. The word is also used loosely for green corrosion on copper alloys, even when the corrosion compounds differ. Viridian is a synthetic hydrated chromium-oxide pigment, identified as Pigment Green 18; it is distinct from opaque chromium oxide green. [28, 29, 37]

History without a universal screen value

Museum and manufacturer accounts place the preparation of viridian in the nineteenth century and distinguish the later cheaper manufacturing method. That history does not establish #40826D, #1E9167 or any other legacy RGB value as the pigment's sole definition. Keep chemistry, historical names and digital catalog entries separate. [29, 37]

Read the actual patch

Resene Verdigris, Resene Viridian Green and Pantone Viridian Green are independently named previews. Teal boundaries also depend on visual judgment: a slightly larger green channel than blue is not, by itself, a rule that a color must be filed under Green. The exact source values and source family remain visible. [5, 12, 25]

Van Dyke brown, vanilla and descriptive names

Van Dyke brown

Historical Vandyke brown includes variable organic earth material containing humus or coal and iron oxides; later products can use other mixtures. The NBS spelling Vandyke Brown and modern Van Dyke Brown product names are preserved in their own contexts. A pigment's geographical or historical association is not a digital standard. [\[22, 31, 32\]](#)

Vanilla is not necessarily white

The legacy #F3E5AB reads as pale yellow or cream in this edition and is reviewed under Yellow. Named catalog Vanillas have their own evidence. A resemblance to a food, flower or natural material does not establish a unique hex or a mandatory classification.

Very, vivid and vibrant

Modifiers can be everyday descriptions, survey labels or formal parts of a catalog name. The xkcd dataset explicitly supplies several very dark, very light, vibrant and vivid labels. NBS also records Vivid as a particular Plochere headword. These contexts should not be merged or expanded by inventing systematic variants. [\[13, 22\]](#)

Very Peri and Viva Magenta: primary numerical evidence

Names, codes and selection years

Pantone identifies Very Peri, 17-3938, as its 2022 selection and Viva Magenta, 18-1750, as its 2023 selection. The award announcement establishes the identity and year. Numerical evidence is checked separately against a named source and material system. [\[23, 24\]](#)

Regional owner previews

The regional owner page exposes Very Peri 17-3938 TCX as #6667AB / RGB (102, 103, 171), and Viva Magenta 18-1750 TCX as #BB2649 / RGB (187, 38, 73). X-Rite's China site links to this Pantone domain, supporting its identity. The original name, code and agreeing RGB/hex fields are all retained. [\[25, 26\]](#)

The resulting correction

Keep the legacy Very Peri number in that documented TCX web-preview context. For the named Viva Magenta TCX context, replace #BE3455 with #BB2649. This is a correction to the specified digital preview; it is not a claim that one RGB triplet reproduces every physical Pantone sample. Pantone's own on-screen-simulation qualification remains applicable. [\[25\]](#)

TCX, TPG and conflicting dealer fields

Preserve the system suffix

A Pantone code includes its system. TCX cotton and TPG paper contexts are not interchangeable. A matching color name alone does not justify moving a numerical value from one system into another. Both the regional owner records and the dealer records retain their suffixes. [\[12, 25\]](#)

Resolve evidence without rewriting it

The consulted dealer tables contain 36 V rows whose printed RGB and hex disagree. The conflict register shows both original fields and the hex implied by RGB. Where a matching owner page was recovered, its internally consistent value supplies a separately documented resolution. The original contradictory dealer row remains outside the admitted atlas.

Verification has a limited meaning

This research recovered 90 named regional owner numerical records. Each was checked for name, code and RGB/hex agreement. Remaining retrieval gaps, if any, are listed explicitly. Web previews, including official ones, remain simulations; a successful numerical check does not establish a physical match or confer a proprietary-library license.

Brand colors and unsupported legacy claims

Verizon Red needs a dated numerical source

Verizon's June 2024 announcement describes a new red V with a yellow glow and a refreshed palette. It does not authenticate #CD040B as a current universal brand specification. The legacy row therefore retains its unverified numerical status; an unrelated page's CSS red is not substituted as an official guide. [38]

Vivaldi and Volt have narrower evidence

Vivaldi's press page supplies #EF3939 as website theme-color metadata, and its own historical article calls red a brand color. That supports an observed website value, not a complete named brand standard. Nike uses Volt as a product colorway name, but the consulted owner listing does not establish #CEFF00 as a universal digital specification. [39-41]

An unverified origin is not a fabricated name

Names such as Vantg Blue, Verse Green and Violin Brown circulate in public lists, but the consulted evidence does not establish their originating numerical authority. They remain in the legacy audit with explicit status. A search gap is not proof that a name has never been used; it is a reason to avoid a stronger claim.

Reading hexadecimal and RGB

Three bytes, one triplet

In six-digit notation, the first two hexadecimal digits encode red, the next two green and the last two blue. Each byte ranges from 00 to FF, equivalent to decimal 0 to 255. CSS violet #EE82EE therefore gives (238, 130, 238). This conversion is exact. [17, 42]

Encoding is not a paint recipe

The values are encoded RGB channels, interpreted as sRGB here. They are not percentages of red, green and blue pigment, reflectance measurements or a CMYK printing formula. Physical reproduction depends on the medium and color-management workflow. [19]

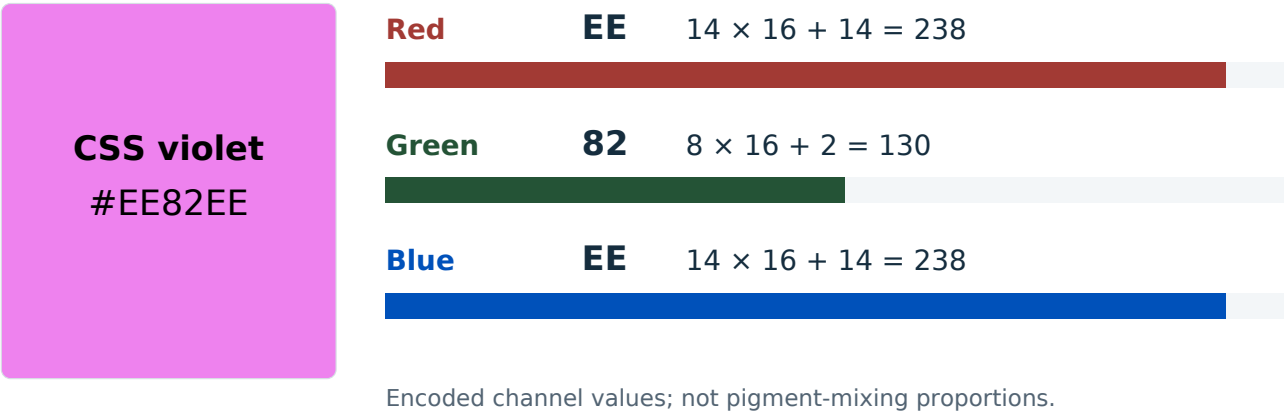

An agreement check catches transcription errors

When a source prints both RGB and hex, they must convert to the same triplet before that pair is admitted. When a catalog provides only an identified CSS hex field, decimal RGB is derived and labeled as such. No absent color is estimated from a screenshot.

GKBOOK / V-COLORS / FIGURE 2

Reading #EE82EE

CSS violet • RGB (238, 130, 238)

Original GKBook graphic • Research checked October 16, 2026

Figure 2. Reading #EE82EE Hexadecimal and decimal RGB are exact alternative notations. Previews are interpreted as sRGB for this edition.

How the shade families were reviewed

Independent visual judgment

Every admitted distinct RGB patch is inspected on a neutral surround, then checked in its final family group. The twelve families are Black, Blue, Brown, Gray, Green, Orange, Pink, Purple, Red, Violet, White and Yellow. The name is evidence of identity, not a command to choose a family.

Boundaries need judgment

Pale tinted colors may read as White; weakly chromatic colors may read as Gray; dark warm colors may read as Brown. Saturated blue-purples can fall under Violet. Each decision considers appearance rather than relying only on a hue angle, channel maximum or manufacturer category.

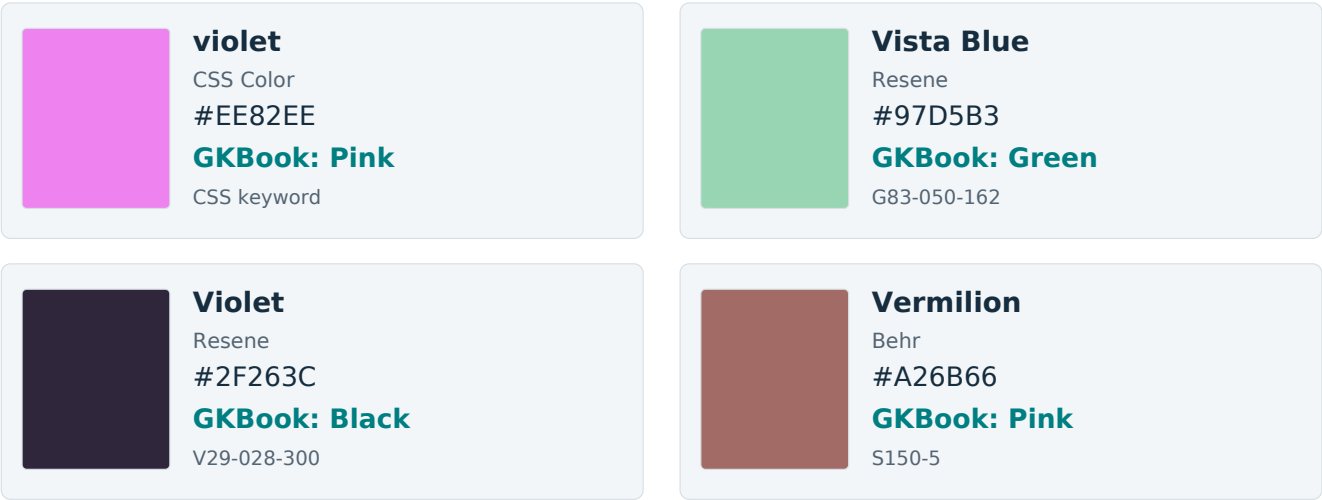

Auditability and consistency

Identical triplets receive identical families within this edition. The data retain provisional labels, final labels, source categories and review-board locations. Legacy patches are reviewed separately even when their names or numerical provenance remain unverified. A visual revision does not authenticate an unsupported number.

GKBOOK / V-COLORS / FIGURE 3

Read the swatch, keep the name

Source names and editorial families answer different questions

Original GKBook graphic • Research checked October 16, 2026

Figure 3. Read the swatch, keep the name The family is a reviewed navigation judgment. Original source names and numerical values are preserved.

Using V colors in CSS and accessible text

Use a keyword only when it is defined

Among the consulted CSS named-color keywords, violet is the sole V-initial keyword. Other names in this article can still be used through their hex or `rgb()` values when appropriate. X.Org names such as `VioletRed1` are not automatically CSS named keywords. [17, 18, 42]

Contrast is a relationship

The data calculate relative luminance and black/white contrast from opaque sRGB values. WCAG's normal-text AA threshold is 4.5:1, and its large-text threshold is 3:1. Compare the unrounded result with the threshold. A color name, brightness impression or source LRV does not substitute for this calculation. [19-21]

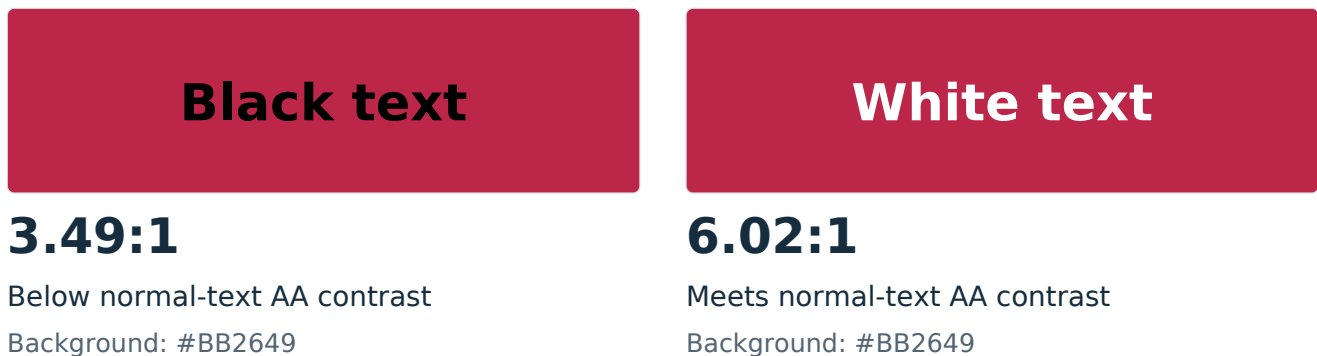

Use the result in context

The worked example uses Viva Magenta's regional owner TCX preview. A passing foreground/background pair does not certify an entire page. Transparency, imagery, changing backgrounds, text size and interaction states can change the practical result. Printed contrast requires separate assessment.

GKBOOK / V-COLORS / FIGURE 4

Text contrast on Viva Magenta

Opaque sRGB colors • Relative luminance $Y = 0.1243$

AA: at least 4.5:1 for normal text; 3:1 for large text.

Both pass the large-text threshold. Compare unrounded values at any threshold.

Original GKBook graphic • Research checked October 16, 2026

Figure 4. Text contrast on Viva Magenta The foreground/background pair determines contrast. These WCAG calculations do not certify an entire interface.

Historical names without invented digital precision

Read the dictionary as a dictionary

The historical register contains 156 directly assigned V headwords and 185 source assignments from NBS SP 440. It preserves distinctions among earlier authors, commercial systems and technical vocabularies. A category number identifies a descriptive region, not a unique sRGB triplet. [22]

Keep disagreements visible

Violet has several earlier-source assignments, while Vanda, Venetian Red and Viridian Green also illustrate source-dependent meanings. Hyphenated and unhyphenated labels can carry different assignments. Source keys, printed pages and same-as pointers remain attached to each entry. [22]

Avoid counting index inversions as new names

An index line such as “Violet, Rose” can point to Rose Violet elsewhere. Cross-reference-only inversions and modifier-first names beginning with another letter are excluded from the direct V-headword count. This preserves broad coverage without manufacturing extra V names.

Research scope and how to update this edition

Bounded completeness

The manufacturer inventories, historical pages and naming datasets are enumerated in the source register. Broad catalogs were inspected for V-initial names, and discovered product pages were checked individually where that was the stated evidence route. Regional availability, unpublished catalogs and later revisions can lie outside this edition.

Dates and versions matter

Some fixed documents and broad inventories were reused from the same October 15-16, 2026 research cycle with their original dates and hashes. V product pages were fetched separately. Older/current Sherwin-Williams differences are recorded, and Resene Voltage carries the owner's legacy metallic-base qualification. A changed preview does not prove physical reformulation. [3, 5, 34, 35]

Update records, not just names

For a future revision, recheck the name, code, system, market, exact numerical field and source date together. Preserve disagreements and existing identifiers where possible. Add verified new records; keep unresolved claims outside the numerical atlas until their specific evidence is established.

Source coverage and family guide

Source groups identify distinct evidence contexts, not a count of unrelated manufacturers. Dealer approximations, survey labels and dated issuer guides remain distinguishable. CSS contributes one V-initial keyword and X.Org contributes six distinct name/value identities. Counts below cover the admitted digital records.

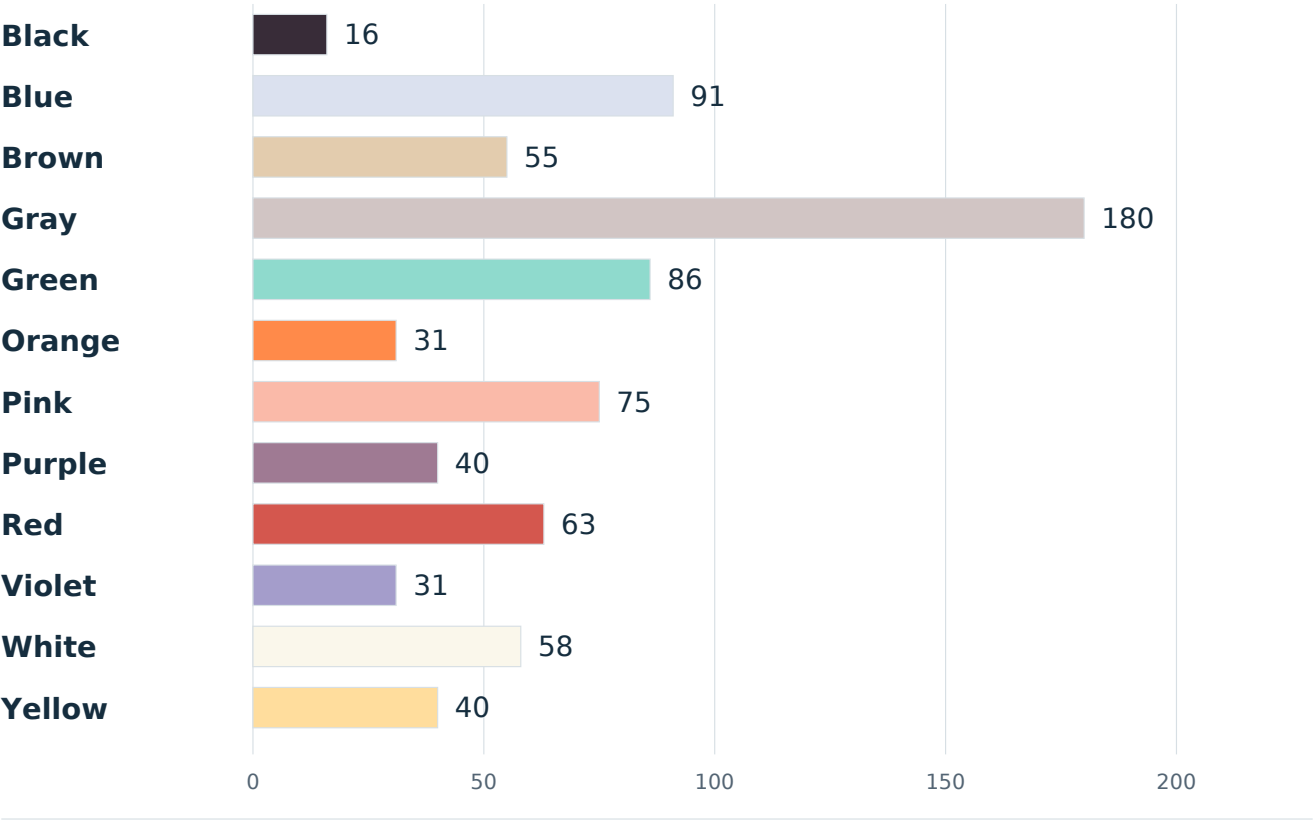

Source group	n	Consulted evidence
Behr	100	100 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [1]
Dulux Australia	94	94 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [9]
Benjamin Moore	58	58 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [2]
Resene	53	53 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [5]
Asian Paints	51	51 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [8]
RAL	50	Naturally V-initial English names in CLASSIC and DESIGN SYSTEM plus. Official web approximations; not physical standards. [14]
Pantone TCX / regional owner	46	Individually checked regional owner TCX name/code/RGB/hex fields. Web simulation only. [25]
Pantone TCX / dealer	44	Consistent dealer-table values retained as separately attributed approximations; owner comparisons supplied. [12]
Pantone TPG / regional owner	44	Individually checked regional owner TPG fields. Separate paper-system context; no interchange with TCX. [25]
Dunn-Edwards	40	40 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [4]
Nerolac	39	39 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [11]
Sherwin-Williams	37	37 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [3]
PPG	33	33 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [6]
xkcd survey	27	Informal survey labels with exact dataset values and original spellings; not a standard. [13]
Jotun	26	26 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [15]
Pantone TPG / dealer	8	Only internally consistent dealer rows admitted here. Contradictory dealer rows and owner resolutions are separately recorded. [12]
X.Org X11	6	Six distinct name/value identities in rgb 1.1.1; one spelling alias combined. [18]
Farrow & Ball	5	5 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [7]
Crayola	2	2 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [16]
Little Greene	2	2 V-initial records. Source identity, code, numerical evidence and qualifiers retained. [10]
CSS Color	1	One named keyword: violet = #EE82EE. Other V labels require numerical CSS notation. [17]

Distribution in this edition

GKBOOK / V-COLORS / FIGURE 5

The 12 editorial families

Records in this source-bounded edition • n = 766

Each admitted record is counted once. • Counts do not measure popularity or natural abundance.

Figure 5. The 12 editorial families The distribution reflects consulted catalogs, record boundaries, and GKBook’s final visual judgments. It is not a survey of color popularity.

These counts describe the inventories and editorial boundaries used here. They do not measure worldwide frequency, popularity, natural abundance, or scientific importance.

Family definitions

Family	n	Interpretation / atlas figure
Black	16	Very dark near-neutrals and selected tinted blacks. Figure 6.
Blue	91	Blues, blue-grays, cyan blues, and selected blue teals. Figure 7.
Brown	55	Earthy warm colors, tans, beiges, ochres, and selected taupes. Figure 8.
Gray	180	Near-neutrals with subdued warm, cool, green, or violet undertones. Figure 9.
Green	86	Greens, mints, olives, yellow-greens, and selected green teals. Figure 10.
Orange	31	Oranges, peaches, salmon-oranges, and selected warm ambers. Figure 11.
Pink	75	Pinks, blushes, roses, and selected coral or deep rose colors. Figure 12.
Purple	40	Comparatively red-leaning or balanced purples, mauves, and plums. Figure 13.
Red	63	Reds, crimsons, burgundies, and selected brick colors. Figure 14.
Violet	31	Comparatively blue-leaning purples and selected lavenders. Figure 15.
White	58	Very pale near-neutrals and selected tinted whites. Figure 16.
Yellow	40	Yellows, creams, golden colors, and selected yellow chartreuses. Figure 17.

Figures 6–17 span 32 labeled atlas sheets. Every one of the 766 digital records appears exactly once. Pale patches have borders; identifiers and numerical values accompany every patch.

Alphabetical digital directory

Family is GKBook’s visual judgment. Each hex/RGB pair is exactly equivalent. The evidence note preserves source categories, archive flags, LRVs, aliases, and limitations. No product code is invented when the consulted page omits it. Proper source spellings and regional names remain intact. Every admitted name begins naturally with V; accent-insensitive search preserves the original displayed spelling. Source systems and original names remain in the data.

Evidence type	Records
primary issuer	687
dealer approximation	52
survey label	27

Aliases and source versions

One X.Org case/spacing alias was consolidated. Original spellings remain searchable in the data. Different source contexts remain separate even when values coincide. Duplicate discovery URLs do not create additional identities. The alias target and original text are retained. [\[18\]](#)

The source-version file preserves 24 code-matched differences between the older Sherwin-Williams table and retained primary previews. All 37 admitted Sherwin-Williams records have individually checked numerical product pages. Nine older-only table discoveries were resolved through primary pages. Preview differences do not establish physical reformulation. [\[3, 34, 35\]](#)

Historical V-color names

The 156 directly assigned V headwords below come from printed pages 151–153 (PDF pages 187–189) of NBS SP 440. The 185 source assignments remain distinct. Inverted cross-references and modifier-first forms are not counted again. Source-specific spellings, plate codes and same-as pointers are retained. No historical RGB value is invented. [22]

Key	Earlier source interpreted by NBS
A	American Association of Textile Chemists and Colorists / Society of Dyers and Colourists, Colour Index names.
F	Federal Specification TT-C-595 (1950), with agency abbreviations retained.
B	H. A. Dade, Color Terminology in Biology.
H	R. F. Wilson, Horticultural Colour Charts.
M	Maerz and Paul, A Dictionary of Color, first edition.
P	Plochere Color System.
R	Ridgway, Color Standards and Color Nomenclature.
S	William H. Beck, Postage-Stamp Color Names.
T	Taylor, Knoche, and Granville, Descriptive Color Names Dictionary.
TC	Textile Color Card Association: Standard Color Card of America and U.S. Army Color Card.

Each source assignment is expanded separately. Category regions are not unique RGB triplets. Same-as pointers and associations remain explicit. Earlier works are represented through NBS rather than independently reexamined.

Conflicting dealer evidence and owner resolutions

36 Pantone dealer rows have conflicting RGB/hex fields. The diagnostic calculation shows the hex equivalent of the printed RGB. A separately verified regional-owner page exists for every held code. Each owner preview is admitted under its own source identity; the contradictory dealer row remains outside the atlas. [\[12, 25, 26\]](#)

The data preserve the exact dealer and owner URLs and all original fields. The owner preview is a documented publication choice for that code and system, not a silent repair of the dealer table or a measured physical standard. The comparison file also covers all internally consistent dealer rows. [\[12, 25\]](#)

Supplementary contexts and scope gaps

Name / source	Evidence boundary
Vermilion / MFA CAMEO	Traditional mercury-sulfide pigment; no universal digital triplet supplied.
Verdigris / MFA CAMEO	Copper-acetate pigment; common patina usage can refer to different compounds.
Viridian / MFA CAMEO	Hydrated chromium oxide / PG18; material identity does not determine one hex.
Venetian red / MFA CAMEO	Iron-oxide pigment context; different natural and manufactured preparations.
Vandyke brown / MFA CAMEO	Variable organic earth pigments and later substitutes; no universal RGB.
Verizon Red / Verizon	Legacy #CD040B not authenticated as a current named numerical standard by the consulted owner announcement. The 2024 refresh changes the visual identity.
Vivaldi Red / Vivaldi	The owner press page contains theme-color #EF3939. Treat this as observed website metadata, not a complete named brand-standard guide.
Volt / Nike	Owner footwear listings document the colorway name; #CEFF00 remains unverified as a universal owner-issued digital specification.
Very Peri / Pantone	17-3938 is the 2022 selection. The TCX regional owner web-preview record is separately included with explicit numbers.
Viva Magenta / Pantone	18-1750 is the 2023 selection. The TCX owner web-preview value #BB2649 corrects the older #BE3455 claim for that context.

Supplementary contexts, continued

Name / source	Evidence boundary
Vantg Blue; Verse Green; Violin Brown / Legacy list	The consulted evidence did not establish an originating numerical authority. Circulating public lists do not prove formal standardization.
Venetian Plaster / Dulux Australia	Collection/finish landing page, not a single numerical color record. Individual V products in the sitemap were checked separately.
Violet Colour / Nerolac	Color-family landing page, not a single shade identity. Its linked product pages retain individual names and values.

These contexts distinguish material names, qualified owner evidence and unsupported legacy claims. No individually discovered V-product endpoint remains with a missing numerical field after the documented exclusions. The Dulux Venetian Plaster collection and Nerolac Violet Colour family landing page are not individual colors. Jotun has 972 unique regional identities from 989 returned rows because pagination overlaps. Source dates and reuse are preserved. [\[9, 11, 15, 23-41\]](#)

Reconciliation of the earlier V list

All 90 supplied rows are accounted for. There are 29 exact source-specific matches, one verified value requiring a label correction, one correction for a specified owner context, and one qualified observation of website metadata. The remaining 58 legacy numerical claims are unverified in the consulted sources, including 21 with separately documented same-name contexts. Every original patch was reviewed; 27 original family labels change. A visual assessment does not authenticate an unsupported number. [33]

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL001 / Vampire Black / #080808 / black	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. No originating naming authority was established for Vampire Black #080808. The near-black appearance can be described without calling the label a standard. Original patch family: Black (retained).
VL002 / Van Dyke Brown / #664228 / brown	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include Nerolac 2839 #7D665D (V0051); Sherwin-Williams SW 7041 #564536 (V0052). These are not automatic replacements for an unspecified context. Historical Van Dyke/Vandyke brown is a variable earth-pigment context. A commercial preview with a similar name does not authenticate the supplied value. Historical context: VH009; no RGB is supplied by these dictionary categories. Original patch family: Brown (retained). Evidence 1 Evidence 2 Evidence 3
VL003 / Vanilla / #F3E5AB / white	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include Jotun 1453 #F0EFE2 (V0056); Pantone TCX / dealer 12-0712 TCX #F4E1C1 (V0057). These are not automatic replacements for an unspecified context. The supplied patch is pale yellow/cream. A food or ingredient association does not establish one numerical standard. Historical context: VH012; no RGB is supplied by these dictionary categories. Original patch family: Yellow (revised from White). Evidence 1 Evidence 2 Evidence 3 Evidence 4 Evidence 5
VL004 / Vanilla Ice / #F38FA9 / pink	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include Asian Paints 7836 #F3EEDA (V0080); Dulux Australia S35B1 #A4C0CD (V0081). These are not automatic replacements for an unspecified context. The consulted owner and dealer Vanilla Ice records use different values. Do not transfer a number between those independent naming contexts. Original patch family: Pink (retained). Evidence 1 Evidence 2 Evidence 3 Evidence 4 Evidence 5 Evidence 6

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL005 / Vantg Blue / #5271FF / blue	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. An originating issuer or standard for Vantg Blue was not established. This is an evidence limit, not proof that the name is invalid or invented. Original patch family: Blue (retained).
VL006 / Vegas Gold / #C5B358 / yellow	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Do not infer a metallic material specification or an institutional Vegas Gold standard from this public-list value. Original patch family: Yellow (retained).
VL007 / Velvet / #750851 / purple	Exact source-specific match	Retain #750851 in this documented context: velvet / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Purple (retained). Matched IDs: V0168 Recommended IDs: V0168 Evidence 1
VL008 / Venetian Red 1 / #C80815 / red	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include RAL RAL 020 50 30 #9A6163 (V0222); Resene R35-067-026 #5B1F22 (V0223). These are not automatic replacements for an unspecified context. The trailing number is a legacy enumeration, not an authenticated product code. Venetian red is an iron-oxide pigment name with variable material appearance. Neither the material name nor a modern product preview defines the supplied hex. Historical context: VH035; no RGB is supplied by these dictionary categories. Original patch family: Red (retained). Evidence 1 Evidence 2 Evidence 3
VL009 / Venetian Red 2 / #CC553D / red	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include RAL RAL 020 50 30 #9A6163 (V0222); Resene R35-067-026 #5B1F22 (V0223). These are not automatic replacements for an unspecified context. The trailing number is a legacy enumeration, not an authenticated product code. The numerical suffix distinguishes legacy rows only. No independent pigment or product system was established for this value. Historical context: VH035; no RGB is supplied by these dictionary categories. Original patch family: Red (retained). Evidence 1 Evidence 2 Evidence 3
VL010 / Verdigris / #43B3AE / blue	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include Behr PPU12-14 #B0B8B0 (V0258); Benjamin Moore 685 #55756C (V0259). These are not automatic replacements for an unspecified context. Verdigris describes copper-acetate pigment and also has a broader corrosion-color usage. The exact supplied teal is retained in the Blue family here; Blue/Green is an editorial boundary, and the earlier audit does not authenticate a numerical correction. Historical context: VH059; no RGB is supplied by these dictionary categories. Original patch family: Blue (retained). Evidence 1 Evidence 2 Evidence 3 Evidence 4

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL011 / Verizon Red / #CD040B / red	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. The June 26, 2024 owner announcement documents a refreshed red V with a yellow glow, but supplies no exact Verizon Red hex. Do not substitute a third-party brand code as current official evidence. Original patch family: Red (retained). Evidence 1
VL012 / Vermilion Plochere / #D9381E / red	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. NBS documents Vermilion under source key P (Plochere), category 35, strong reddish orange. That historical category confirms a naming context, not #D9381E. Correct the label to Vermilion (Plochere) if retaining that historical discussion; omit an unsupported exact swatch. Original patch family: Red (retained). Evidence 1 Evidence 2
VL013 / Vermillion / #F4320C / red	Exact source-specific match	Retain #F4320C in this documented context: vermilion / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. The primary xkcd dataset itself spells this label vermilion and gives #F4320C. Retain that spelling for the survey record; use vermilion when discussing the pigment. This resolves the earlier audit more precisely than calling it an unidentified catalog variant. Original patch family: Red (retained). Matched IDs: V0276 Recommended IDs: V0276 Evidence 1 Evidence 2
VL014 / Verse Green / #18880D / green	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. No originating issuer was established for Verse Green #18880D. Keep it in the comparison log until documentary numerical evidence is obtained. Original patch family: Green (retained).
VL015 / Very Dark Blue / #000133 / black	Exact source-specific match	Retain #000133 in this documented context: very dark blue / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Black (retained). Matched IDs: V0306 Recommended IDs: V0306 Evidence 1
VL016 / Very Dark Brown / #1D0200 / black	Exact source-specific match	Retain #1D0200 in this documented context: very dark brown / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Black (retained). Matched IDs: V0307 Recommended IDs: V0307 Evidence 1
VL017 / Very Dark Green / #062E03 / black	Exact source-specific match	Retain #062E03 in this documented context: very dark green / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Black (retained). Matched IDs: V0308 Recommended IDs: V0308 Evidence 1
VL018 / Very Dark Purple / #2A0134 / black	Exact source-specific match	Retain #2A0134 in this documented context: very dark purple / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Purple (revised from Black). Matched IDs: V0309 Recommended IDs: V0309 Evidence 1

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL019 / Very Light Azure / #74BBFB / blue	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Blue (retained).
VL020 / Very Light Blue 1 / #6666FF / blue	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include xkcd survey #D5FFFF (V0315). These are not automatic replacements for an unspecified context. The trailing number is a legacy enumeration, not an authenticated product code. The xkcd label very light blue is #D5FFFF, not #6666FF. Those are separate claims; the latter is a saturated blue patch, not a very pale one. Original patch family: Blue (retained). Evidence 1
VL021 / Very Light Blue 2 / #D5FFFF / blue	Exact source-specific match	Retain #D5FFFF in this documented context: very light blue / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. The trailing number is a legacy enumeration, not an authenticated product code. Original patch family: White (revised from Blue). Matched IDs: V0315 Recommended IDs: V0315 Evidence 1
VL022 / Very Light Brown / #D3B683 / brown	Exact source-specific match	Retain #D3B683 in this documented context: very light brown / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Brown (retained). Matched IDs: V0316 Recommended IDs: V0316 Evidence 1
VL023 / Very Light Green / #D1FFBD / green	Exact source-specific match	Retain #D1FFBD in this documented context: very light green / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Green (retained). Matched IDs: V0317 Recommended IDs: V0317 Evidence 1
VL024 / Very Light Malachite Green / #64E986 / green	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Green (retained).
VL025 / Very Light Pink / #FFF4F2 / pink	Exact source-specific match	Retain #FFF4F2 in this documented context: very light pink / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: White (revised from Pink). Matched IDs: V0318 Recommended IDs: V0318 Evidence 1
VL026 / Very Light Purple / #F6CEFC / purple	Exact source-specific match	Retain #F6CEFC in this documented context: very light purple / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Pink (revised from Purple). Matched IDs: V0319 Recommended IDs: V0319 Evidence 1
VL027 / Very Light Tangelo / #FFB077 / orange	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Orange (retained).
VL028 / Very Pale Blue / #D6FFFE / blue	Exact source-specific match	Retain #D6FFFE in this documented context: very pale blue / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: White (revised from Blue). Matched IDs: V0321 Recommended IDs: V0321 Evidence 1

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL029 / Very Pale Green / #CFFDBC / green	Exact source-specific match	Retain #CFFDBC in this documented context: very pale green / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Green (retained). Matched IDs: V0322 Recommended IDs: V0322 Evidence 1
VL030 / Very Pale Orange / #FFDFBF / orange	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Orange (retained).
VL031 / Very Pale Yellow / #FFFFBF / yellow	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Yellow (retained).
VL032 / Very Peri / #6667AB / purple	Exact source-specific match	Retain #6667AB in this documented context: Very Peri / Pantone TCX / regional owner / 17-3938 TCX. Pantone confirms Very Peri 17-3938 as its 2022 selection. The regional owner page explicitly supplies TCX #6667AB / RGB (102,103,171). Describe it as that dated owner web preview, not as the physical textile standard. Original patch family: Blue (revised from Purple). Matched IDs: V0323 Recommended IDs: V0323 Evidence 1
VL033 / Vibrant Blue / #0339F8 / blue	Exact source-specific match	Retain #0339F8 in this documented context: vibrant blue / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Blue (retained). Matched IDs: V0341 Recommended IDs: V0341 Evidence 1
VL034 / Vibrant Green / #0ADD08 / green	Exact source-specific match	Retain #0ADD08 in this documented context: vibrant green / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Historical context: VH082; no RGB is supplied by these dictionary categories. Original patch family: Green (retained). Matched IDs: V0348 Recommended IDs: V0348 Evidence 1
VL035 / Vibrant Purple / #AD03DE / purple	Exact source-specific match	Retain #AD03DE in this documented context: vibrant purple / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Purple (retained). Matched IDs: V0359 Recommended IDs: V0359 Evidence 1

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL036 / Violet 1 / #7F00FF / purple	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include CSS Color CSS keyword #EE82EE (V0520); Crayola Explore Colors #8359A3 (V0521). These are not automatic replacements for an unspecified context. The trailing number is a legacy enumeration, not an authenticated product code. Do not call this RGB mixture a spectral violet. No wavelength or unique historical color-wheel standard is established by a hex triplet. Historical context: VH123; no RGB is supplied by these dictionary categories. Original patch family: Violet (revised from Purple). Evidence 1 Evidence 2 Evidence 3 Evidence 4 Evidence 5 Evidence 6 Evidence 7 Evidence 8 Evidence 9 Evidence 10 Evidence 11
VL037 / Violet 2 / #8000FF / purple	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include CSS Color CSS keyword #EE82EE (V0520); Crayola Explore Colors #8359A3 (V0521). These are not automatic replacements for an unspecified context. The trailing number is a legacy enumeration, not an authenticated product code. Do not claim that the suffix 2 denotes a recognized violet system. Encoded RGB values alone are not spectral wavelengths. Historical context: VH123; no RGB is supplied by these dictionary categories. Original patch family: Violet (revised from Purple). Evidence 1 Evidence 2 Evidence 3 Evidence 4 Evidence 5 Evidence 6 Evidence 7 Evidence 8 Evidence 9 Evidence 10 Evidence 11

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL038 / Violet 3 / #8F00FF / purple	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include CSS Color CSS keyword #EE82EE (V0520); Crayola Explore Colors #8359A3 (V0521). These are not automatic replacements for an unspecified context. The trailing number is a legacy enumeration, not an authenticated product code. Do not label this screen patch spectral violet or assert an electric-violet standard without an originating specification. Historical context: VH123; no RGB is supplied by these dictionary categories. Original patch family: Violet (revised from Purple). Evidence 1 Evidence 2 Evidence 3 Evidence 4 Evidence 5 Evidence 6 Evidence 7 Evidence 8 Evidence 9 Evidence 10 Evidence 11
VL039 / Violet 4 / #963D7F / purple	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include CSS Color CSS keyword #EE82EE (V0520); Crayola Explore Colors #8359A3 (V0521). These are not automatic replacements for an unspecified context. The trailing number is a legacy enumeration, not an authenticated product code. This legacy Violet variant is not the W3C keyword. A similarly named pigment or product cannot authenticate its number. Historical context: VH123; no RGB is supplied by these dictionary categories. Original patch family: Purple (retained). Evidence 1 Evidence 2 Evidence 3 Evidence 4 Evidence 5 Evidence 6 Evidence 7 Evidence 8 Evidence 9 Evidence 10 Evidence 11
VL040 / Violet 5 / #EE82EE / purple	Exact source-specific match	Retain #EE82EE in this documented context: violet / CSS Color / CSS keyword; violet / X.Org X11 / rgb 1.1.1. The trailing number is a legacy enumeration, not an authenticated product code. Rename this entry violet (CSS) for the CSS context, and retain a separate X.Org context when needed. The suffix 5 is editorial. This is the only V-initial CSS named-color keyword. Historical context: VH123; no RGB is supplied by these dictionary categories. Original patch family: Pink (revised from Purple). Matched IDs: V0520, V0528 Recommended IDs: V0520, V0528 Evidence 1 Evidence 2 Evidence 3

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL041 / Violet Blue / #766EC8 / blue	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include RAL RAL 290 40 45 #4C4E9E (V0536); RAL RAL 5000 #35496B (V0537). These are not automatic replacements for an unspecified context. Historical context: VH125; no RGB is supplied by these dictionary categories. Original patch family: Violet (revised from Blue). Evidence 1 Evidence 2 Evidence 3
VL042 / Violet Blue 1 / #324AB2 / blue	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include RAL RAL 290 40 45 #4C4E9E (V0536); RAL RAL 5000 #35496B (V0537). These are not automatic replacements for an unspecified context. The trailing number is a legacy enumeration, not an authenticated product code. Do not identify this value as a present or historical Crayola specification without a dated issuer source supporting both name and number. Historical context: VH125; no RGB is supplied by these dictionary categories. Original patch family: Blue (retained). Evidence 1 Evidence 2 Evidence 3 Evidence 4
VL043 / Violet Blue 2 / #510AC9 / blue	Exact source-specific match	Retain #510AC9 in this documented context: violet blue / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. The trailing number is a legacy enumeration, not an authenticated product code. Historical context: VH125; no RGB is supplied by these dictionary categories. Original patch family: Violet (revised from Blue). Matched IDs: V0538 Recommended IDs: V0538 Evidence 1
VL044 / Violet I / #732E6C / purple	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. The consulted Crayola inventory does not establish the label Violet I or this number. Historical naming/version evidence would be required before presenting it as an earlier Crayola specification. Original patch family: Purple (retained). Evidence 1
VL045 / Violet II / #8359A3 / purple	Value verified; legacy label needs correction	Relabel as Violet (Crayola), #8359A3 (V0521). The supplied Violet II label was not verified. The current primary Crayola inventory supports Violet #8359A3. Relabel this row Violet (Crayola); the supplied Roman-numeral label Violet II is not authenticated by that inventory. Original patch family: Violet (revised from Purple). Recommended IDs: V0521 Evidence 1
VL046 / Violet Pink / #FB5FFC / pink	Exact source-specific match	Retain #FB5FFC in this documented context: violet pink / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Pink (retained). Matched IDs: V0582 Recommended IDs: V0582 Evidence 1
VL047 / Violet Red / #F7468A / red	Exact source-specific match	Retain #F7468A in this documented context: Violet Red / Crayola / Explore Colors. Original patch family: Pink (revised from Red). Matched IDs: V0589 Recommended IDs: V0589 Evidence 1

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL048 / Violet Red 1 / #891446 / red	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include Crayola Explore Colors #F7468A (V0589); RAL RAL 330 50 35 #936091 (V0590). These are not automatic replacements for an unspecified context. The trailing number is a legacy enumeration, not an authenticated product code. The audit proposed a different family for this dark raspberry patch. Red is retained under the stated burgundy/deep-rose boundary; neither family judgment validates the unsupported legacy number. Original patch family: Red (retained). Evidence 1 Evidence 2 Evidence 3 Evidence 4
VL049 / Violet Red 2 / #A50055 / red	Exact source-specific match	Retain #A50055 in this documented context: violet red / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. The trailing number is a legacy enumeration, not an authenticated product code. This is the xkcd survey violet red. Red is retained for its dark raspberry appearance under the editorial definition; the audit's Purple/Pink recommendation is a boundary judgment, not a factual numerical correction. Original patch family: Red (retained). Matched IDs: V0592 Recommended IDs: V0592 Evidence 1
VL050 / Violet Red 3 / #F75394 / red	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include Crayola Explore Colors #F7468A (V0589); RAL RAL 330 50 35 #936091 (V0590). These are not automatic replacements for an unspecified context. The trailing number is a legacy enumeration, not an authenticated product code. The current Crayola owner inventory gives Violet Red #F7468A, not #F75394. Keep the latter unverified unless a dated issuer version is supplied; its visible family is Pink. Original patch family: Pink (revised from Red). Evidence 1 Evidence 2 Evidence 3 Evidence 4
VL051 / Violet RYB / #8601AF / purple	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. An RYB label names a color-model context, not a uniquely standardized RGB conversion. Do not present #8601AF as the mandatory RYB violet. Original patch family: Purple (retained).
VL052 / Violets Are Blue / #8366F4 / blue	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include PPG PPG1246-6 #7487C6 (V0599). These are not automatic replacements for an unspecified context. The PPG product named Violets Are Blue has a separately documented preview. Its existence does not validate this different legacy value. Original patch family: Violet (revised from Blue). Evidence 1
VL053 / Violin Brown / #674403 / brown	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Wood, varnish, and lighting can vary. No originating numerical specification for Violin Brown was established. Original patch family: Brown (retained).

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL054 / Viridian 1 / #1E9167 / green	Exact source-specific match	Retain #1E9167 in this documented context: viridian / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. The trailing number is a legacy enumeration, not an authenticated product code. The exact match is a survey response, not a physical pigment measurement. Viridian pigment is hydrated chromium(III) oxide. Historical context: VH141; no RGB is supplied by these dictionary categories. Original patch family: Green (retained). Matched IDs: V0644 Recommended IDs: V0644 Evidence 1 Evidence 2
VL055 / Viridian 2 / #40826D / green	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include xkcd survey #1E9167 (V0644). These are not automatic replacements for an unspecified context. The trailing number is a legacy enumeration, not an authenticated product code. Viridian is hydrated chromium(III) oxide, distinct from anhydrous chromium oxide green. Its material history does not authenticate this exact screen number; avoid blanket non-toxic claims. Historical context: VH141; no RGB is supplied by these dictionary categories. Original patch family: Green (retained). Evidence 1 Evidence 2
VL056 / Viridian Green / #009698 / green	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include Pantone TCX / dealer 17-5126 TCX #009499 (V0645); Pantone TCX / regional owner 17-5126 TCX #009499 (V0646). These are not automatic replacements for an unspecified context. Pantone TCX and TPG owner previews are separately sourced as #009499 and #00979C. Neither verifies the supplied #009698; retain system codes when choosing an intended Pantone context. Historical context: VH142; no RGB is supplied by these dictionary categories. Original patch family: Blue (revised from Green). Evidence 1 Evidence 2 Evidence 3 Evidence 4
VL057 / Vista Blue / #7C9ED9 / blue	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include Pantone TCX / dealer 15-3930 TCX #81A0D4 (V0673); Pantone TCX / regional owner 15-3930 TCX #80A0D4 (V0674). These are not automatic replacements for an unspecified context. The regional owner gives Vista Blue TCX #80A0D4 and TPG #7E9CD3. The dealer TCX #81A0D4 is another documented approximation. None authenticates the supplied #7C9ED9. Original patch family: Blue (retained). Evidence 1 Evidence 2 Evidence 3 Evidence 4
VL058 / Viva Magenta / #BE3455 / pink	Correction for specified owner context	Use Viva Magenta 18-1750 TCX #BB2649 (V0700) for the Pantone regional owner web-preview context. For Pantone Viva Magenta 18-1750 TCX, replace #BE3455 with the regional owner preview #BB2649 / RGB (187,38,73). Pantone confirms the 2023 selection. Retain the TCX and web-preview qualifications; do not imply every material or conversion has one universal hex. Original patch family: Red (revised from Pink). Recommended IDs: V0700 Evidence 1

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL059 / Vivaldi Red / #EF3939 / red	Owner website value observed; label qualified	Retain #EF3939 only as observed Vivaldi website theme-color metadata; exclude it from the named-standard atlas. The owner press page exposes theme-color metadata #EF3939, and a separate owner article describes red as a brand color. This supports an observed website color, not a full named Vivaldi Red brand-standard guide. Keep the narrower website-metadata context. Original patch family: Red (retained). Evidence 1 Evidence 2
VL060 / Vivid Amber / #CC9900 / yellow	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Yellow (retained).
VL061 / Vivid Auburn / #922724 / brown	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. The supplied patch reads as dark red under this edition's visual definitions. The word auburn does not by itself authenticate its numerical origin. Original patch family: Red (revised from Brown).
VL062 / Vivid Blue / #152EFF / blue	Exact source-specific match	Retain #152EFF in this documented context: vivid blue / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Blue (retained). Matched IDs: V0707 Recommended IDs: V0707 Evidence 1
VL063 / Vivid Burgundy / #9F1D35 / red	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Red (retained).
VL064 / Vivid Cerise / #DA1D81 / pink	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Pink (retained).
VL065 / Vivid Cerulean / #00AAEE / blue	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Blue (retained).
VL066 / Vivid Crimson / #CC0033 / red	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Red (retained).
VL067 / Vivid Gamboge / #FF9900 / yellow	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. The supplied patch reads as golden orange. Revise the family from Yellow to Orange, while keeping the numerical naming claim unverified. Original patch family: Orange (revised from Yellow).
VL068 / Vivid Green / #2FEF10 / green	Exact source-specific match	Retain #2FEF10 in this documented context: vivid green / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Green (retained). Matched IDs: V0713 Recommended IDs: V0713 Evidence 1

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL069 / Vivid Lime Green / #A6D608 / green	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Green (retained).
VL070 / Vivid Malachite / #00CC33 / green	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Green (retained).
VL071 / Vivid Mulberry / #B80CE3 / purple	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Purple (retained).
VL072 / Vivid Orange / #FF5F00 / orange	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include Asian Paints 7990 #F88E58 (V0715). These are not automatic replacements for an unspecified context. Original patch family: Orange (retained). Evidence 1
VL073 / Vivid Orange Peel / #FFA000 / orange	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Orange (retained).
VL074 / Vivid Orchid / #CC00FF / purple	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Purple (retained).
VL075 / Vivid Purple / #9900FA / purple	Exact source-specific match	Retain #9900FA in this documented context: vivid purple / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Violet (revised from Purple). Matched IDs: V0717 Recommended IDs: V0717 Evidence 1
VL076 / Vivid Raspberry / #FF006C / pink	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Pink (retained).
VL077 / Vivid Red / #F70D1A / red	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Red (retained).
VL078 / Vivid Red Tangelo / #DF6124 / red	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. The supplied patch reads as orange. Revise the family from Red to Orange; this does not establish a naming authority. Original patch family: Orange (revised from Red).
VL079 / Vivid Sky Blue / #00CCFF / blue	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Blue (retained).
VL080 / Vivid Tangelo / #F07427 / orange	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Orange (retained).

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL081 / Vivid Tangerine 1 / #FF9980 / orange	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. The trailing number is a legacy enumeration, not an authenticated product code. Original patch family: Orange (retained).
VL082 / Vivid Tangerine 2 / #FFA089 / orange	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. The trailing number is a legacy enumeration, not an authenticated product code. Original patch family: Orange (retained).
VL083 / Vivid Vermilion / #E56024 / red	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. The supplied patch is orange-red, assigned Orange here. Distinguish the adjective vivid from an exact standardized pigment specification. Original patch family: Orange (revised from Red). Evidence 1
VL084 / Vivid Violet / #9F00FF / purple	Name found; legacy numerical claim unverified	Keep the supplied number unverified. Separate documented contexts include Dunn-Edwards DE5012 #AE5883 (V0722). These are not automatic replacements for an unspecified context. Dunn-Edwards uses Vivid Violet for a different sourced preview. Do not silently replace one context with the other. Original patch family: Violet (revised from Purple). Evidence 1
VL085 / Vivid Yellow / #FFE302 / yellow	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Original patch family: Yellow (retained).
VL086 / Vodka / #BFC0EE / blue	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. The drink name does not establish an intrinsic pale-violet color or a numerical standard. Keep the unsupported named value outside the admitted atlas. Original patch family: Blue (retained).
VL087 / Volt / #CEFF00 / green	Legacy numerical claim unverified	No exact originating name/value match was established in the consulted inventories. Preserve the original fields in the audit; exclude this unsupported named value from the admitted atlas. Nike uses Volt as a product colorway name, but the consulted owner listing supplies no universal hex. The supplied bright chartreuse patch is assigned Yellow; do not call #CEFF00 an authenticated Nike standard. Original patch family: Yellow (revised from Green). Evidence 1
VL088 / Vomit / #A2A415 / brown	Exact source-specific match	Retain #A2A415 in this documented context: vomit / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Yellow (revised from Brown). Matched IDs: V0747 Recommended IDs: V0747 Evidence 1

Legacy entry / value	Evidence outcome	Resolution / matched IDs
VL089 / Vomit Green / #89A203 / green	Exact source-specific match	Retain #89A203 in this documented context: vomit green / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Green (retained). Matched IDs: V0748 Recommended IDs: V0748 Evidence 1
VL090 / Vomit Yellow / #C7C10C / yellow	Exact source-specific match	Retain #C7C10C in this documented context: vomit yellow / xkcd survey. Preserve the lowercase informal survey label; it is not a color standard. Original patch family: Yellow (retained). Matched IDs: V0749 Recommended IDs: V0749 Evidence 1

Glossary

Term	Meaning
Alias	A documented alternative spelling or label attached to a particular identity; not a license to merge similar names.
Digital preview	A source-published screen representation, interpreted here as an sRGB value.
Hex triplet	Six hexadecimal digits encoding red, green and blue bytes.
RGB	Red, green and blue channel values; these are not paint-mixing proportions.
sRGB	A defined RGB color space and encoding; the assumed space for these eight-bit previews.
Source family	The classification stated by a manufacturer or dataset, retained separately from GKBook’s judgment.
Editorial family	One of the twelve broad visual navigation categories used in this edition.
ISCC-NBS category	A numbered descriptive color region used in the historical dictionary, not an exact digital value.
TCX / TPG	Distinct Pantone Fashion, Home + Interiors systems whose suffixes must stay with the code.
LRV	Light reflectance value supplied by a paint source; not interchangeable with calculated screen relative luminance.
Relative luminance	A quantity calculated from linearized sRGB channels for the contrast calculations shown here.
Held record	A numerical evidence row excluded from the atlas because the consulted fields conflict or remain insufficient.

Frequently asked questions

Which V color is a CSS keyword?

Violet is the only V-initial named-color keyword in the consulted CSS table. It is #EE82EE, or RGB (238, 130, 238). Other V names require a numerical CSS color value unless a separate application defines them. X.Org numbered labels should not be assumed to be CSS keywords. [17, 18, 42]

Are violet and purple the same?

Everyday usage overlaps. Here, Violet and Purple are distinct editorial navigation families, while exact source names remain unchanged. Spectral violet is a wavelength-related concept; an RGB purple or violet is a color-space specification. No hex value alone supplies the spectrum of the light that produces it. [19, 36]

What is the correct hex for Very Peri?

The checked regional owner page gives Very Peri 17-3938 TCX as #6667AB, RGB (102, 103, 171). Keep the TCX suffix and web-preview qualification. Pantone identifies Very Peri as its 2022 selection, but that award identity should not be confused with a guarantee of physical screen-to-sample matching. [23, 25]

What should replace the earlier Viva Magenta value?

For the checked 18-1750 TCX owner web-preview context, use #BB2649, RGB (187, 38, 73), in place of the earlier #BE3455. The owner identifies Viva Magenta as its 2023 selection. Preserve the system and source rather than calling the hex a universal physical definition. [24, 25, 33]

Is vermilion an error?

Vermilion is the usual pigment spelling, but vermilion is the exact xkcd survey label paired with #F4320C. Retain that documented spelling when citing the survey. Do not silently replace a source label, and do not use the survey triplet as the universal numerical definition of mercury-sulfide pigment. [13, 27]

Why is Vista Blue sometimes green?

A source name can be associative or commercial rather than a literal family assignment. Resene Vista Blue is #97D5B3 in the checked preview, a green-leaning patch. Other sources have their own Vista Blue values. Preserve each name and code while classifying the actual patch independently. [5, 12, 25]

Does an official preview guarantee a paint match?

No. A named manufacturer web value establishes that source's digital preview. Material, surface, illumination and viewing conditions affect physical appearance. Metallic effects add further variation: Resene Voltage is a legacy metallic preview whose original Fine Aluminium base is no longer available. Its flat patch cannot reproduce that effect. [5]

Why keep held rows in the report?

They preserve the evidence needed to understand a conflict. A derived hex shows what a printed RGB triplet means, but does not reveal which field the publisher intended. Separately verified owner records can supply a publication choice while the contradictory dealer fields remain unchanged in the audit. [12, 25]
